BREWRICH WEALTH

THE MARKET ISN'T YOUR PROBLEM. YOUR PROCESS IS.

Most retail investors don't lose money because they lack tips, news, or stock ideas. They fail because they lack an institutional framework for managing portfolio risk.

No Structured Process

Buying on impulse, news releases, or social media hype with zero exit protocol.

Absence of Discipline

Changing strategies after two losing trades instead of following statistical expectancy.

Zero Risk Control

Over-concentrating capital in single positions without stop-loss or drawdown limits.

The Retail Disadvantage

90% of individual traders fail not due to bad stocks, but due to psychological decay and unmanaged tail risk.

LACK OF
PROCESS

LACK OF
DISCIPLINE

LACK OF
**RISK
CONTROL**

TRADE WITH SYSTEMS. NOT EMOTIONS.

Replace psychological vulnerability with systematic execution.

EMOTION

Unstructured & Reactive

FEAR

Premature exits & panic selling

GREED

Late entries at peak prices

HOPE

Delayed stop-loss on losing trades

IMPULSE

Broken position sizing rules

VS

SYSTEM

Algorithmic & Rule-Based

RULES

Absolute execution discipline

DATA

Statistical conviction

PROCESS

Long-term consistency

AUTOMATION

Emotionless capital control

EVOLUTION OF MINDSET

FROM MARKET PARTICIPANT TO CAPITAL ALLOCATOR

Move beyond random stock picks to an institutional operating model.

01

ANALYSE

Scan macro regimes,
sector trends &
fundamentals.

02

DECIDE

Apply objective quant
filters & risk-reward
metrics.

03

ALLOCATE

Calculate exact position
sizing based on risk.

04

EXECUTE

Execute strictly on
predefined signals.

05

REVIEW

Audit performance against
expectancy.

THINK LIKE AN INSTITUTION.

Institutional investing isn't about chasing hot tips or guessing the next stock. It's a structured discipline built on 10 interconnected pillars.

Professional portfolio design prioritizes survivability over speculative gains.

01 Capital Allocation

02 Portfolio Construction

03 Risk Management

04 Asset Selection

05 Position Sizing

06 Market Regimes

07 Fundamental Research

08 Portfolio Monitoring

09 Performance Evaluation

10 Investment Discipline

BUILD A **SYSTEM.** NOT A GUESS.

Our end-to-end 6-stage quantitative strategy architecture.

01 // RESEARCH

Data-Driven Screening

Identify structural market opportunities grounded in financial data and factor analysis, not media narratives.

02 // ANALYSE

Stress-Testing Ideas

Evaluate fundamentals, price structure, momentum, and macroeconomic regime alignment.

03 // ALLOCATE

Mathematical Sizing

Size each position according to volatility, covariance, and portfolio risk tolerance rather than emotion.

04 // EXECUTE

Pre-Defined Triggers

Enter and exit positions strictly on predetermined systematic signals without hesitation.

05 // MANAGE RISK

Capital Protection

Enforce stop-loss frameworks, portfolio drawdown caps, and risk-reward constraints on every trade.

06 // REVIEW

System Audit

Continuously audit execution quality, trade logs, and metrics to refine the system objectively.

SEE THE MARKET BEFORE YOU ENTER IT.

Reading market structure before price moves is the layer most retail investors never learn to decode.

High Institutional Flow

DON'T JUST BUY A STOCK. UNDERSTAND THE BUSINESS.

8 fundamental pillars required for institutional stock selection.

01

Business Model

Unit economics, scalability, and pricing power.

02

Revenue Growth

Multi-year CAGR and organic addressable expansion.

03

Profitability

EBITDA margins, ROE, ROCE & operating leverage.

04

Cash Flow

Free Cash Flow conversion and working capital cycles.

05

Balance Sheet

Debt-to-Equity, interest coverage, and solvency.

06

Valuation

DCF modelling, relative PE/PB, and Margin of Safety.

07

Moat / Edge

High entry barriers, network effects, brand moat.

08

Management

Promoter holding, capital allocation track record.

ONE GREAT STOCK ISN'T A PORTFOLIO.

Learn how professional funds construct resilient asset allocation models with low covariance and strict risk limits.

Diversification across non-correlated sectors

Prevents portfolio destruction during sector-specific market stress.

Mathematical Volatility Sizing

Ensures high-beta stocks don't dominate your portfolio risk profile.

Institutional Allocation Breakdown

DYNAMIC REBALANCING

Core Growth Equities	40%
Systematic Momentum	30%
Tactical Hedging / Gold	20%
Liquid Capital Reserve	10%

PROGRAM ARCHITECTURE

ONE MONTH. ONE SYSTEM. A NEW WAY TO THINK ABOUT CAPITAL.

A focused 1-month institutional program designed to build your investment framework through live, practical sessions.

1 MONTH**DURATION**

High-density transformation

4 WEEKS**CURRICULUM**

Step-by-step framework

SAT + SUN**LIVE SESSIONS**

Interactive weekend lectures

1-ON-1**STRATEGY SESSION**

FOUR-WEEK CURRICULUM

WEEK 01

THINK LIKE AN INVESTOR

- ✓ Market Structure
- ✓ Investor Mindset
- ✓ Fundamental Research
- ✓ Financial Analysis
- ✓ Valuation Models

Module: Fundamentals

WEEK 02

BUILD THE STRATEGY

- ✓ Technical Analysis
- ✓ Sector Dynamics
- ✓ Entry & Exit Triggers
- ✓ Position Sizing
- ✓ Risk-Reward Ratios

Module: Technicals & System

WEEK 03

TEST BEFORE YOU TRUST

- ✓ Backtesting Engine
- ✓ CAGR & Drawdown
- ✓ Sharpe & Profit Factor
- ✓ Monte Carlo Sim
- ✓ Stress Testing

Module: Quant Verification

WEEK 04

BUILD YOUR PORTFOLIO

- ✓ Portfolio Construction
- ✓ Asset Allocation
- ✓ Dynamic Rebalancing
- ✓ Personal Playbook
- ✓ 1-on-1 Strategy Audit

Module: Deployment

DON'T JUST BELIEVE THE SYSTEM. TEST IT.
