

CHART PATTERNS & CANDLESTICKS

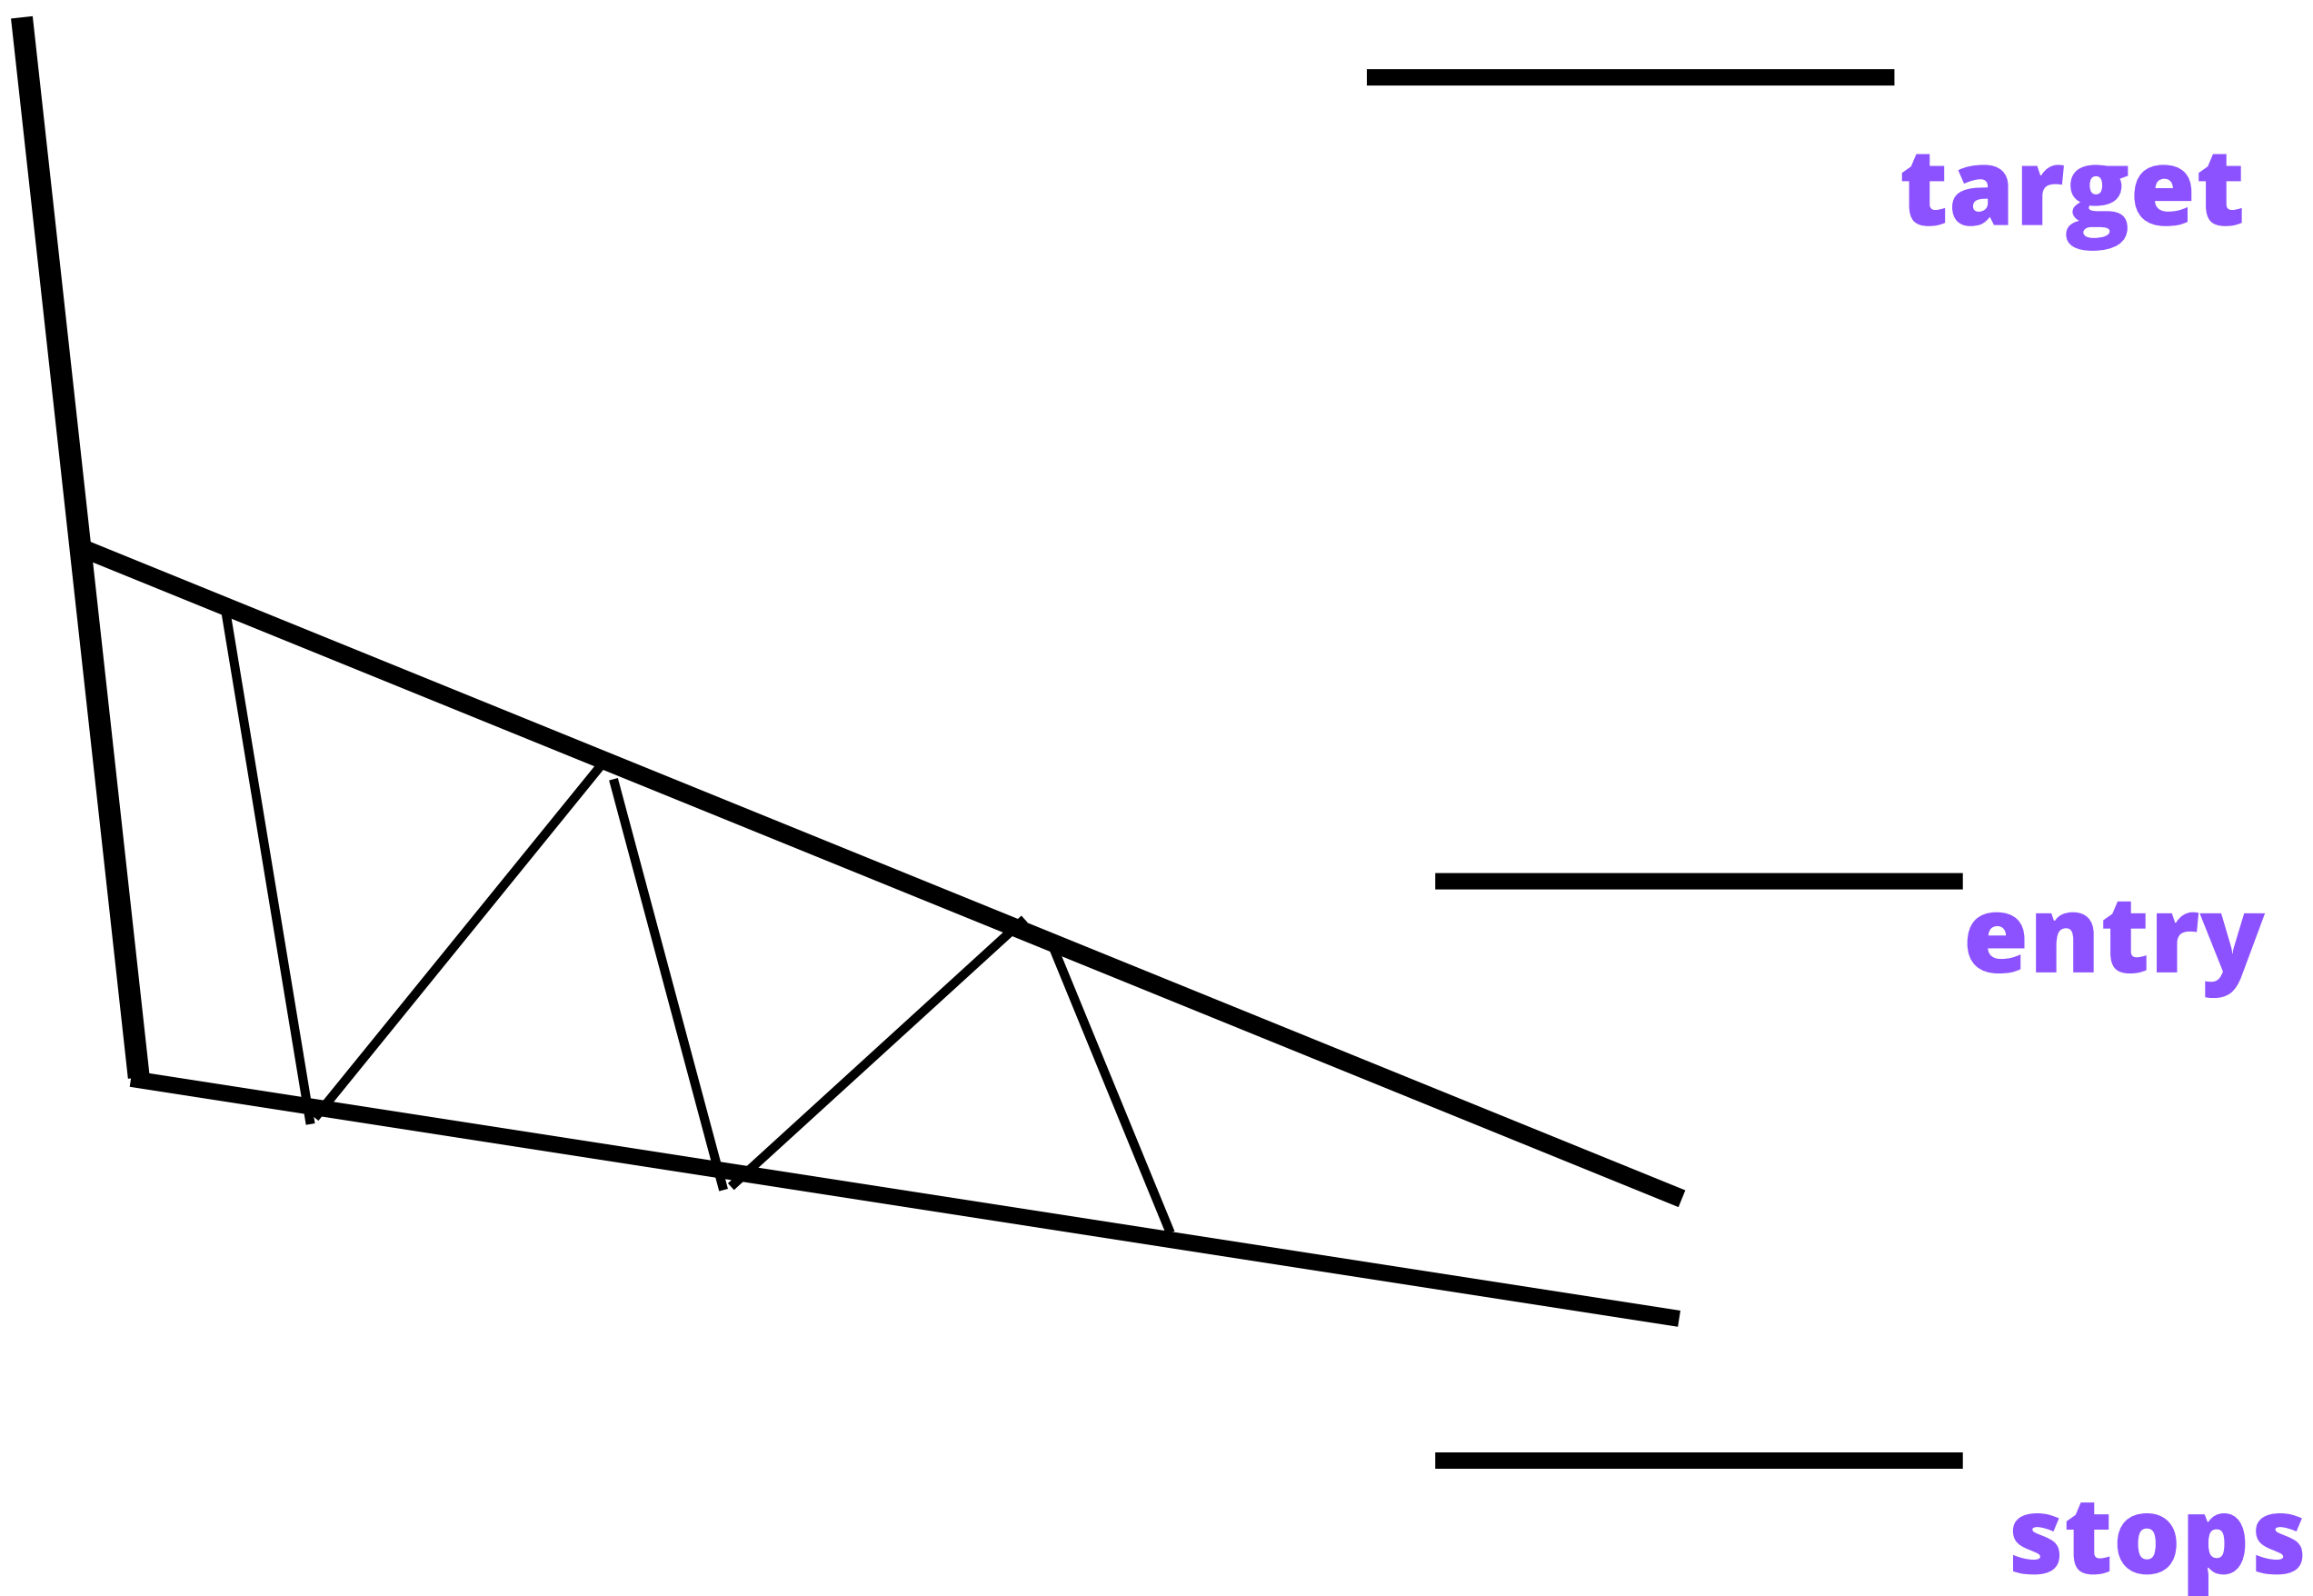

CHART PATTERNS BREAKOUTS & BREAKDOWNS

**MONEY IS MADE BY SITTING
NOT BY TRADING**

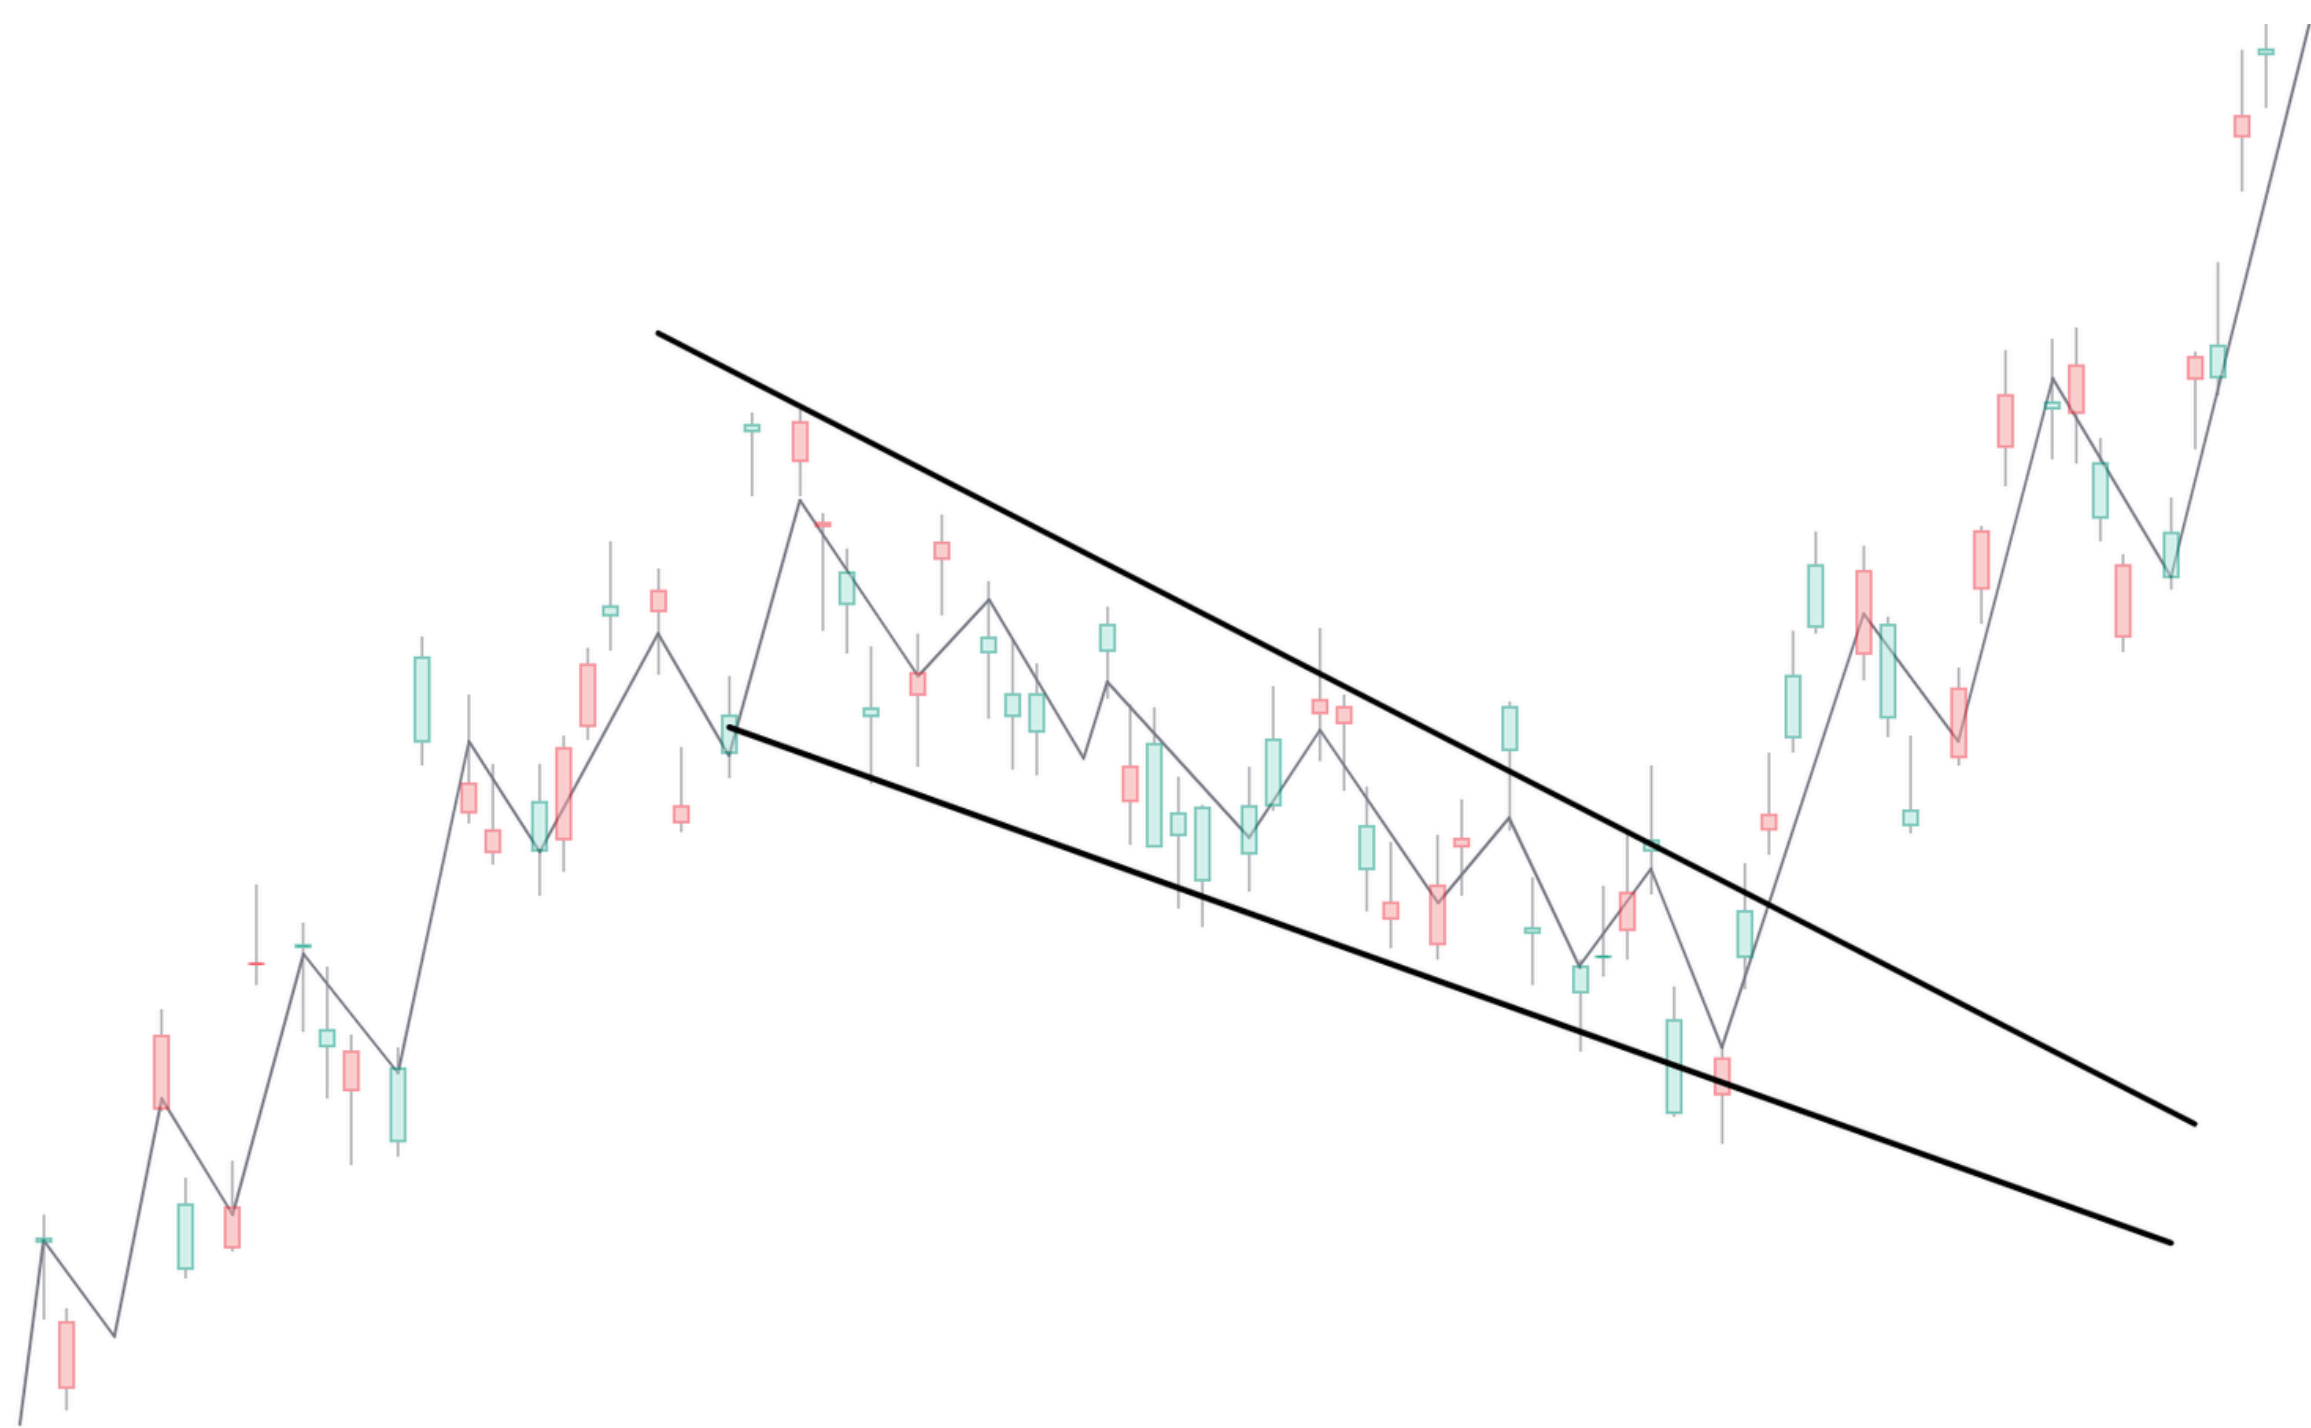

FALLING WEDGE

LONG ENTRY

When the price breaks the upper trend line, the security is expected to reverse and trend higher. Traders identifying bullish reversal signals would want to look for trades that benefit from the security's rise in price

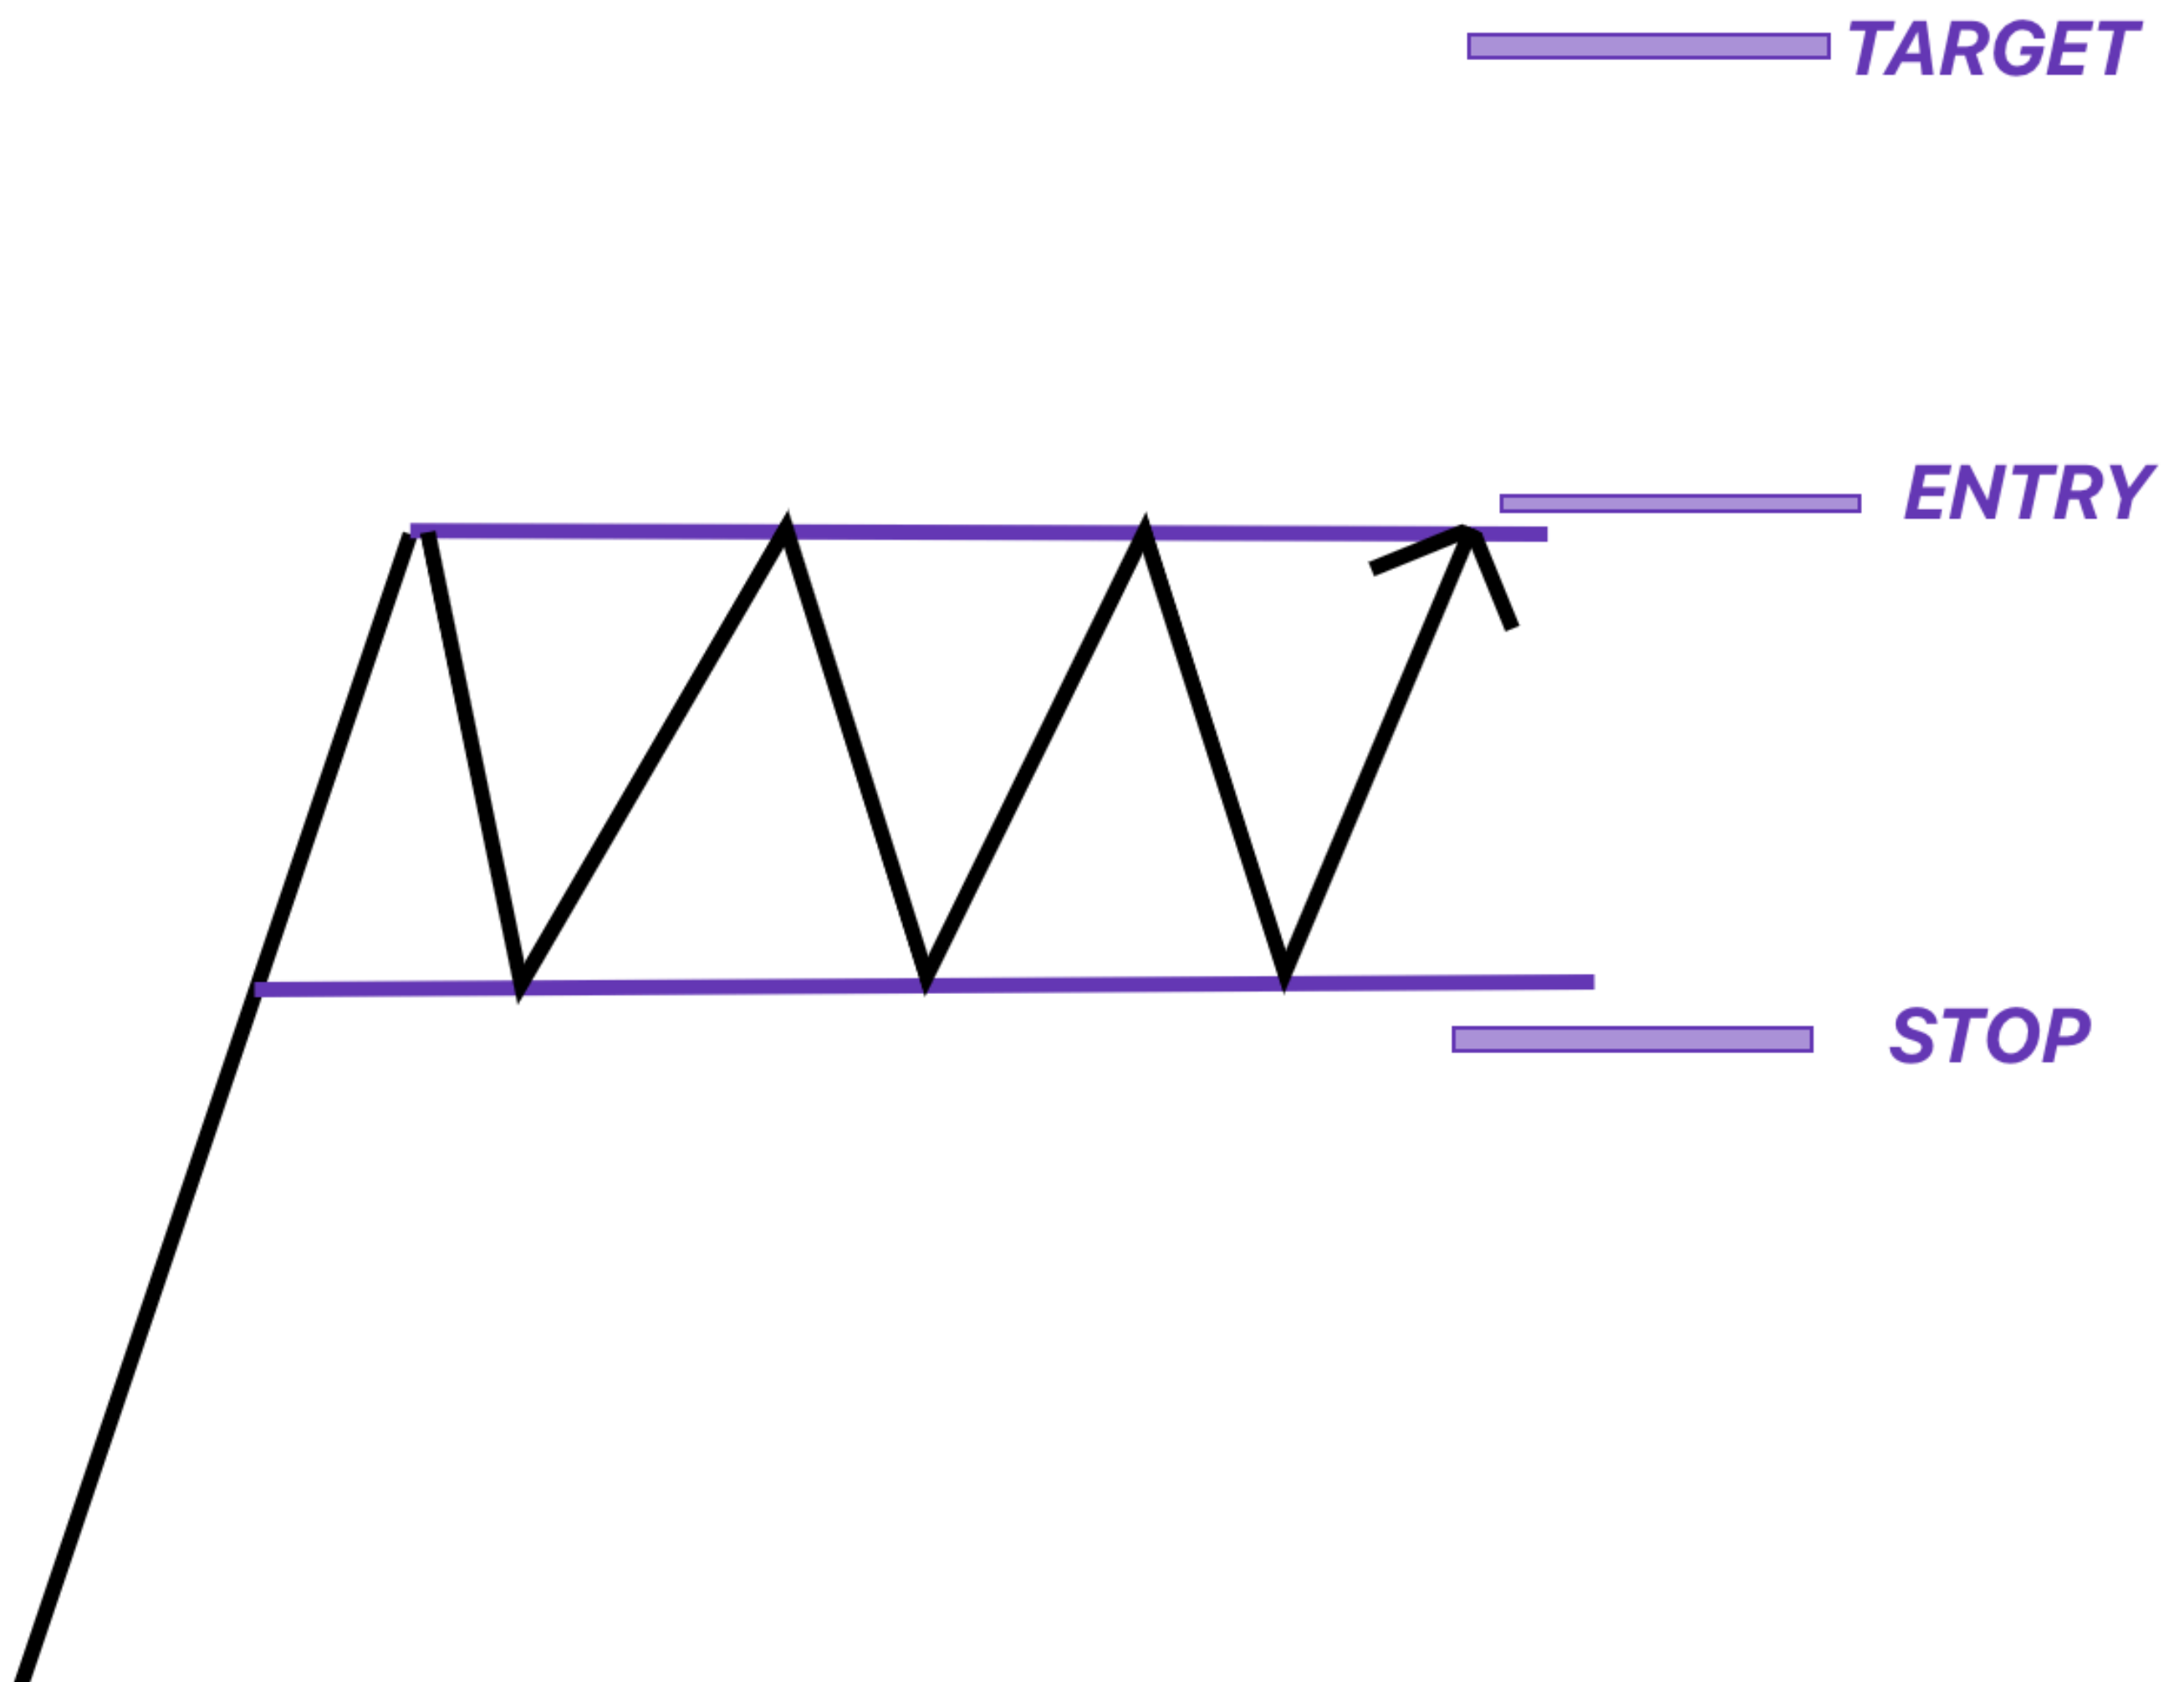

Real Time trades

LONG ENTRY

Realised P&L	Charges & taxes	Other credits & debits	Net realised P&L	Unrealised P&L
+32.64k	4.73k 	188.8	+28.09k	0

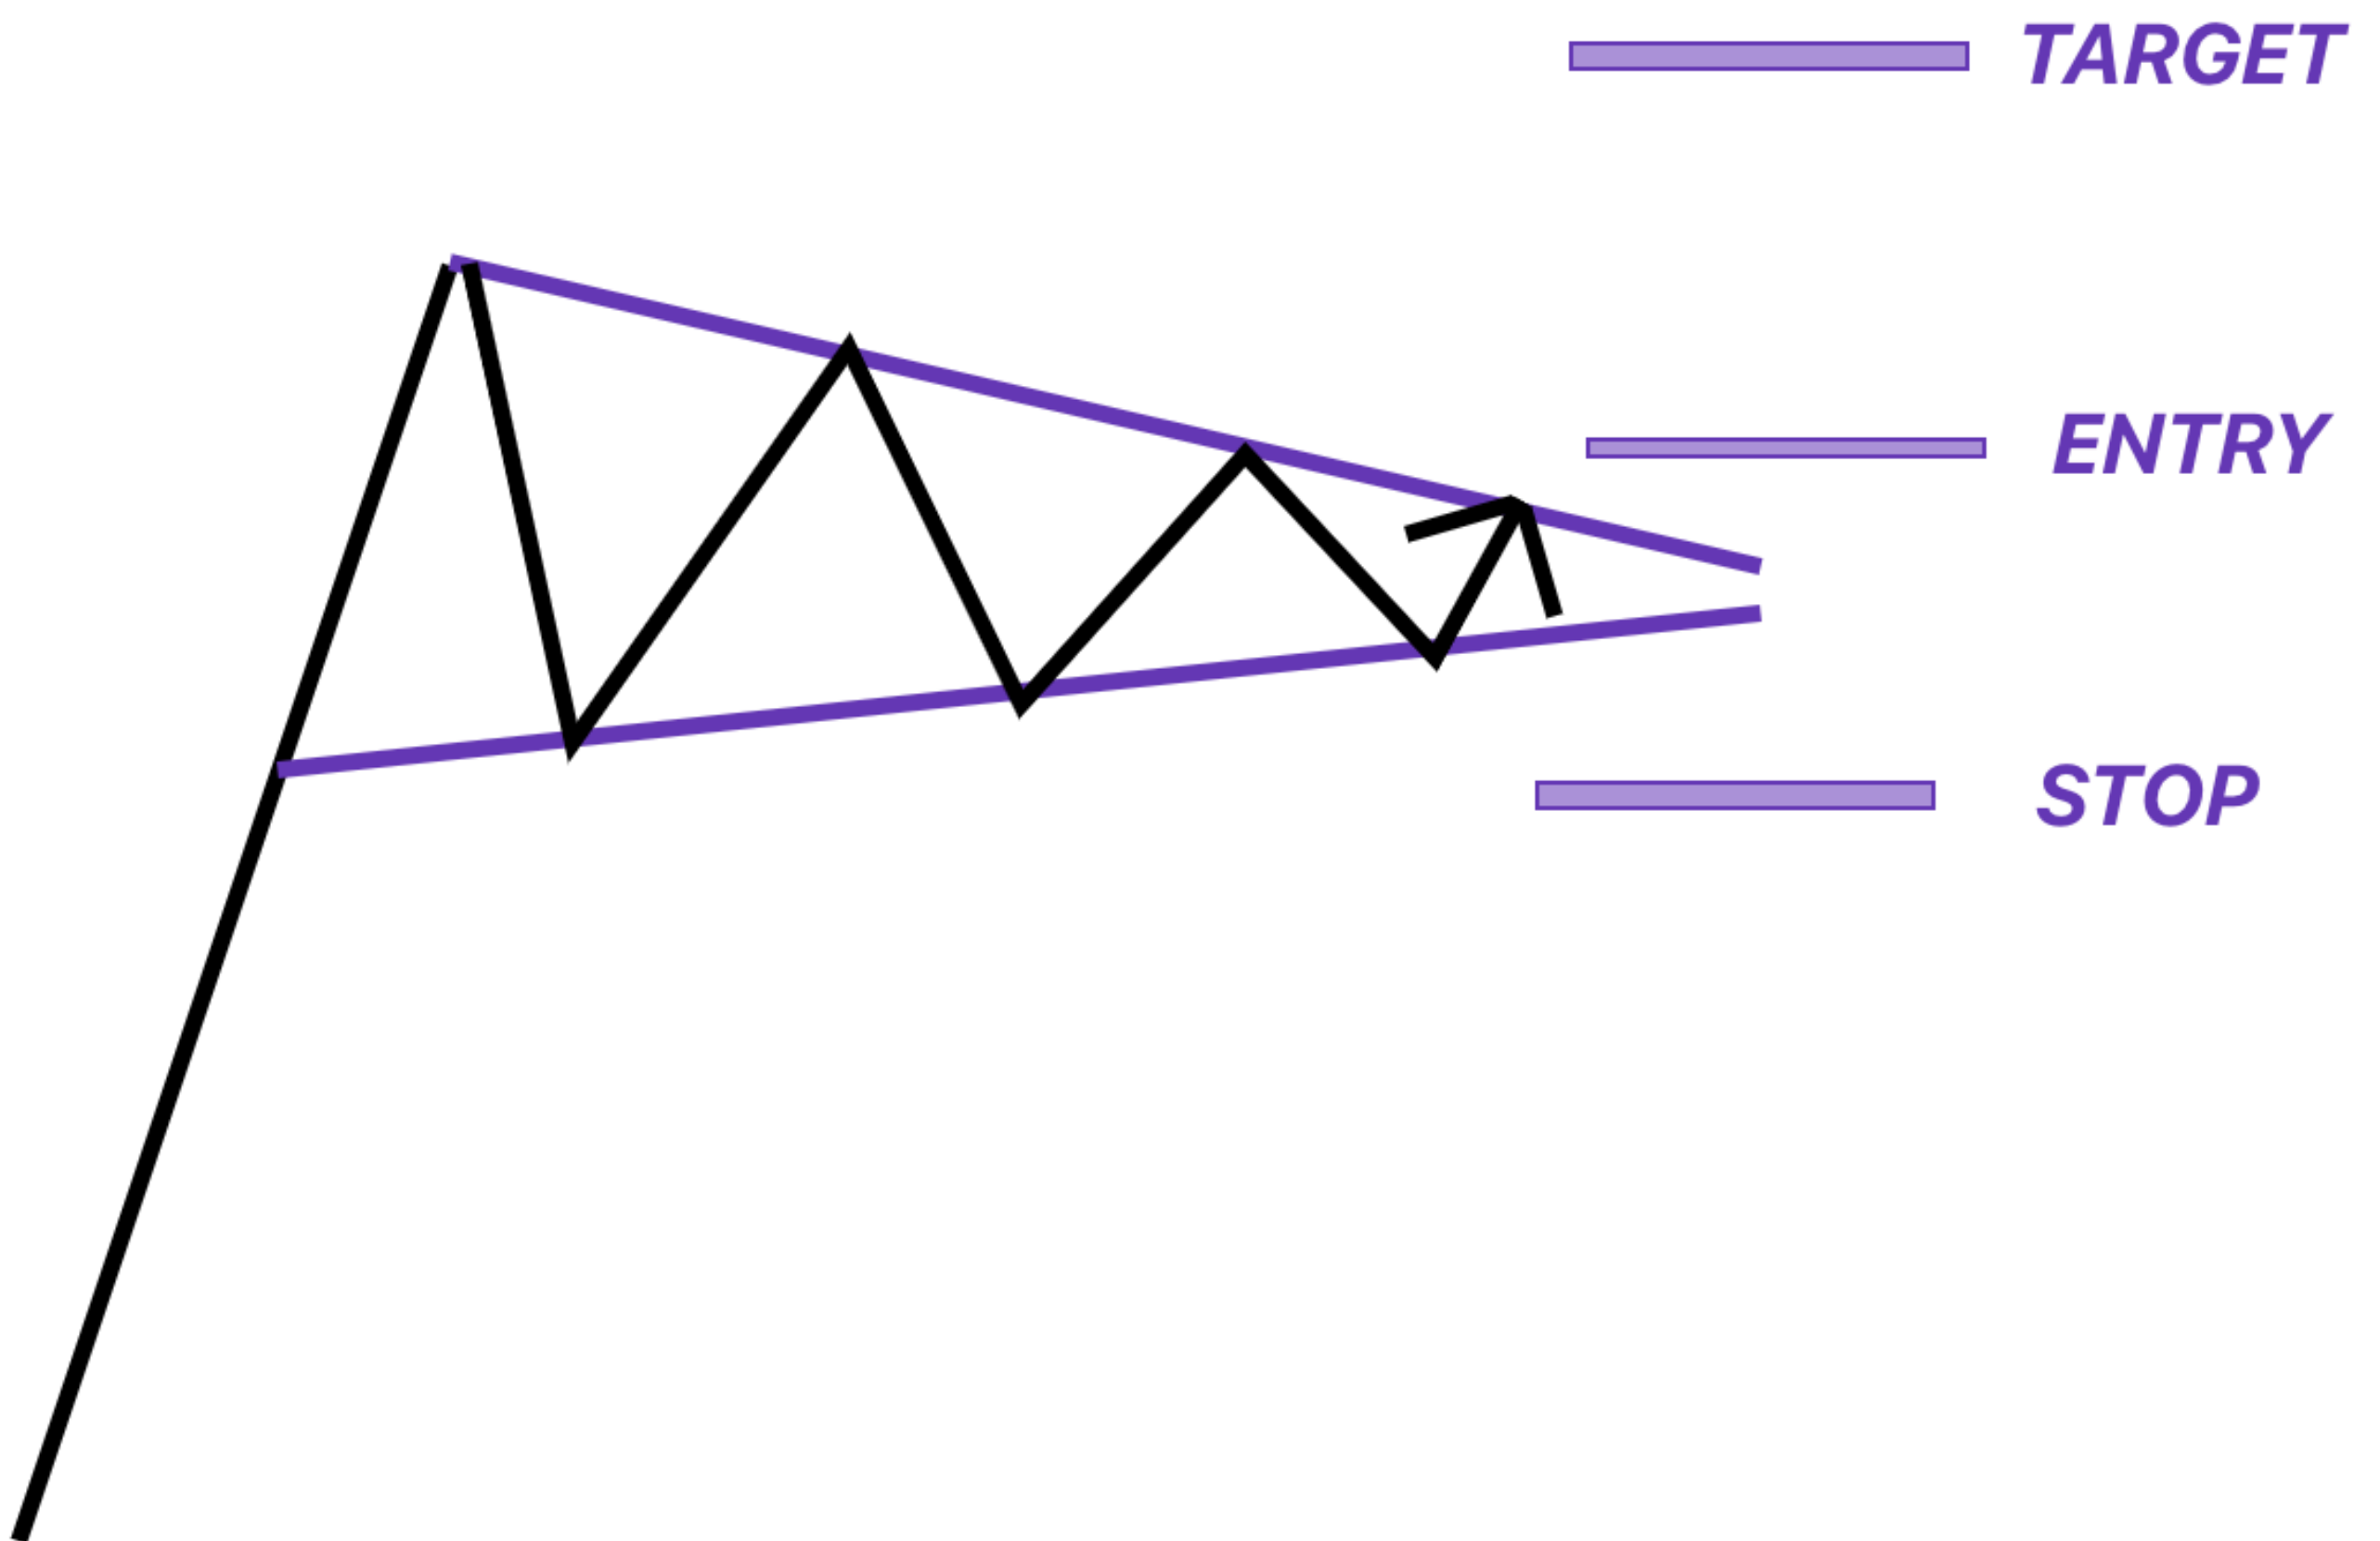

BULLISH RECTANGLE

LONG ENTRY

When the price breaks the upper trend line, the security is expected to reverse and trend higher. Traders identifying bullish reversal signals would want to look for trades that benefit from the security's rise in price

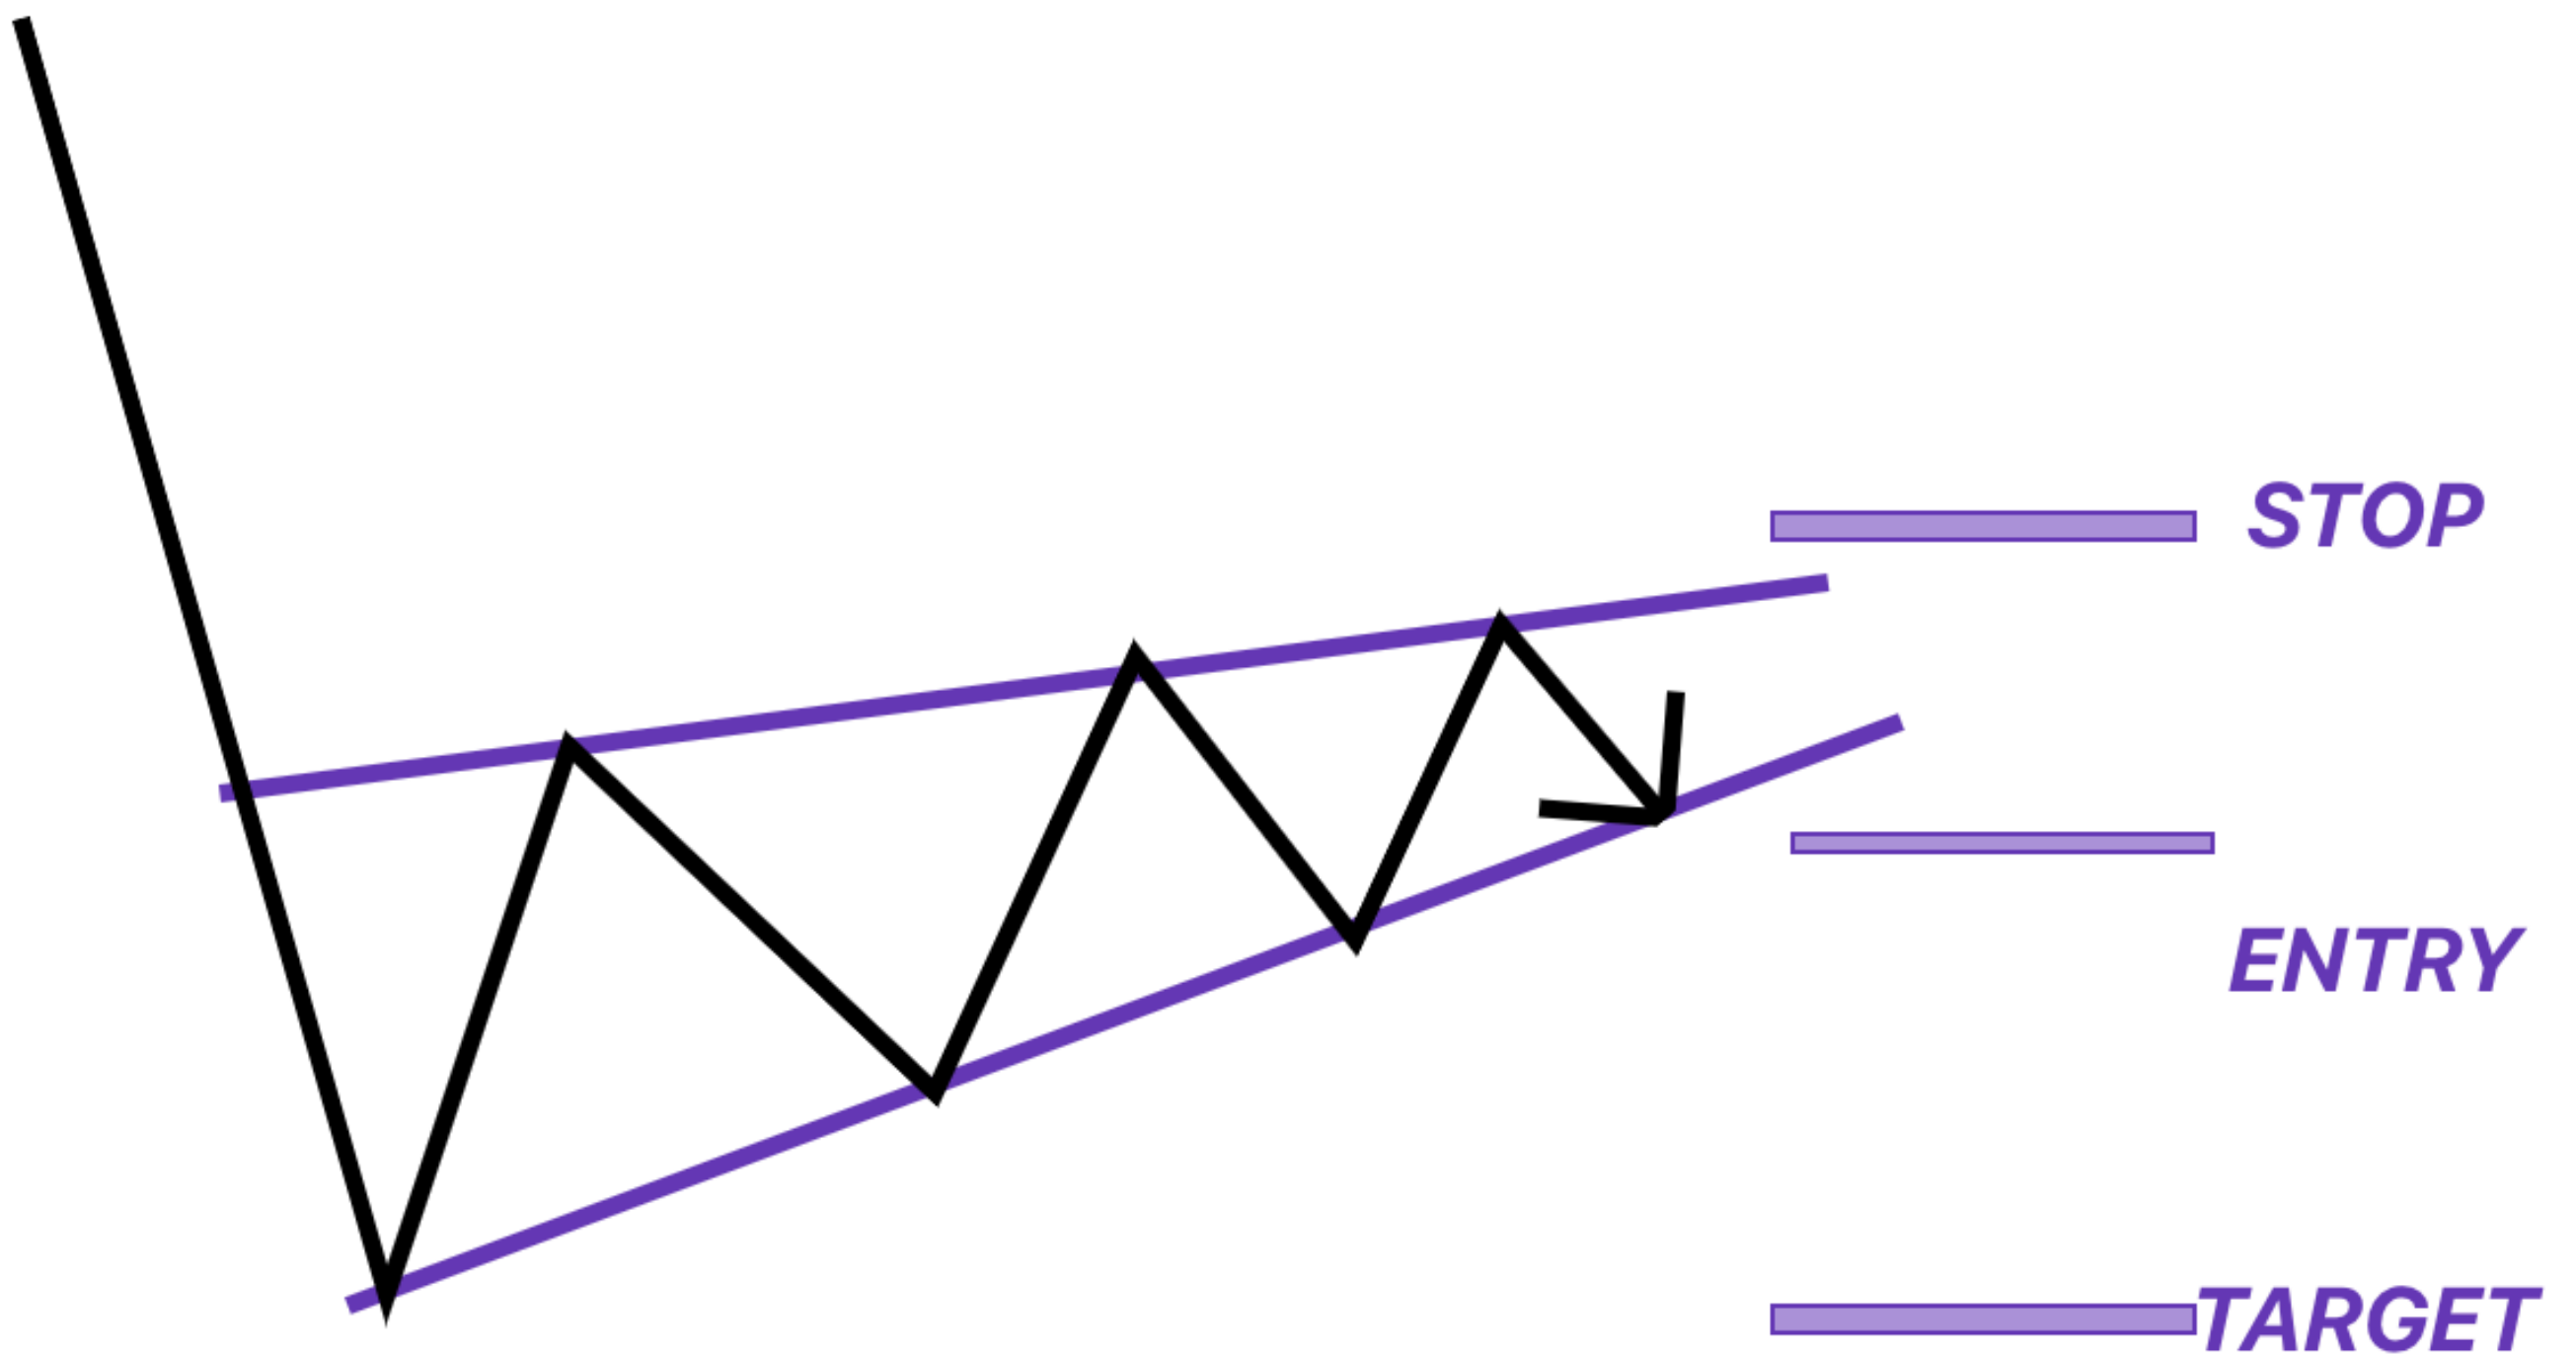

BULLISH PENNANT

LONG ENTRY

When the price breaks the upper trend line, the security is expected to reverse and trend higher. Traders identifying bullish reversal signals would want to look for trades that benefit from the security's rise in price

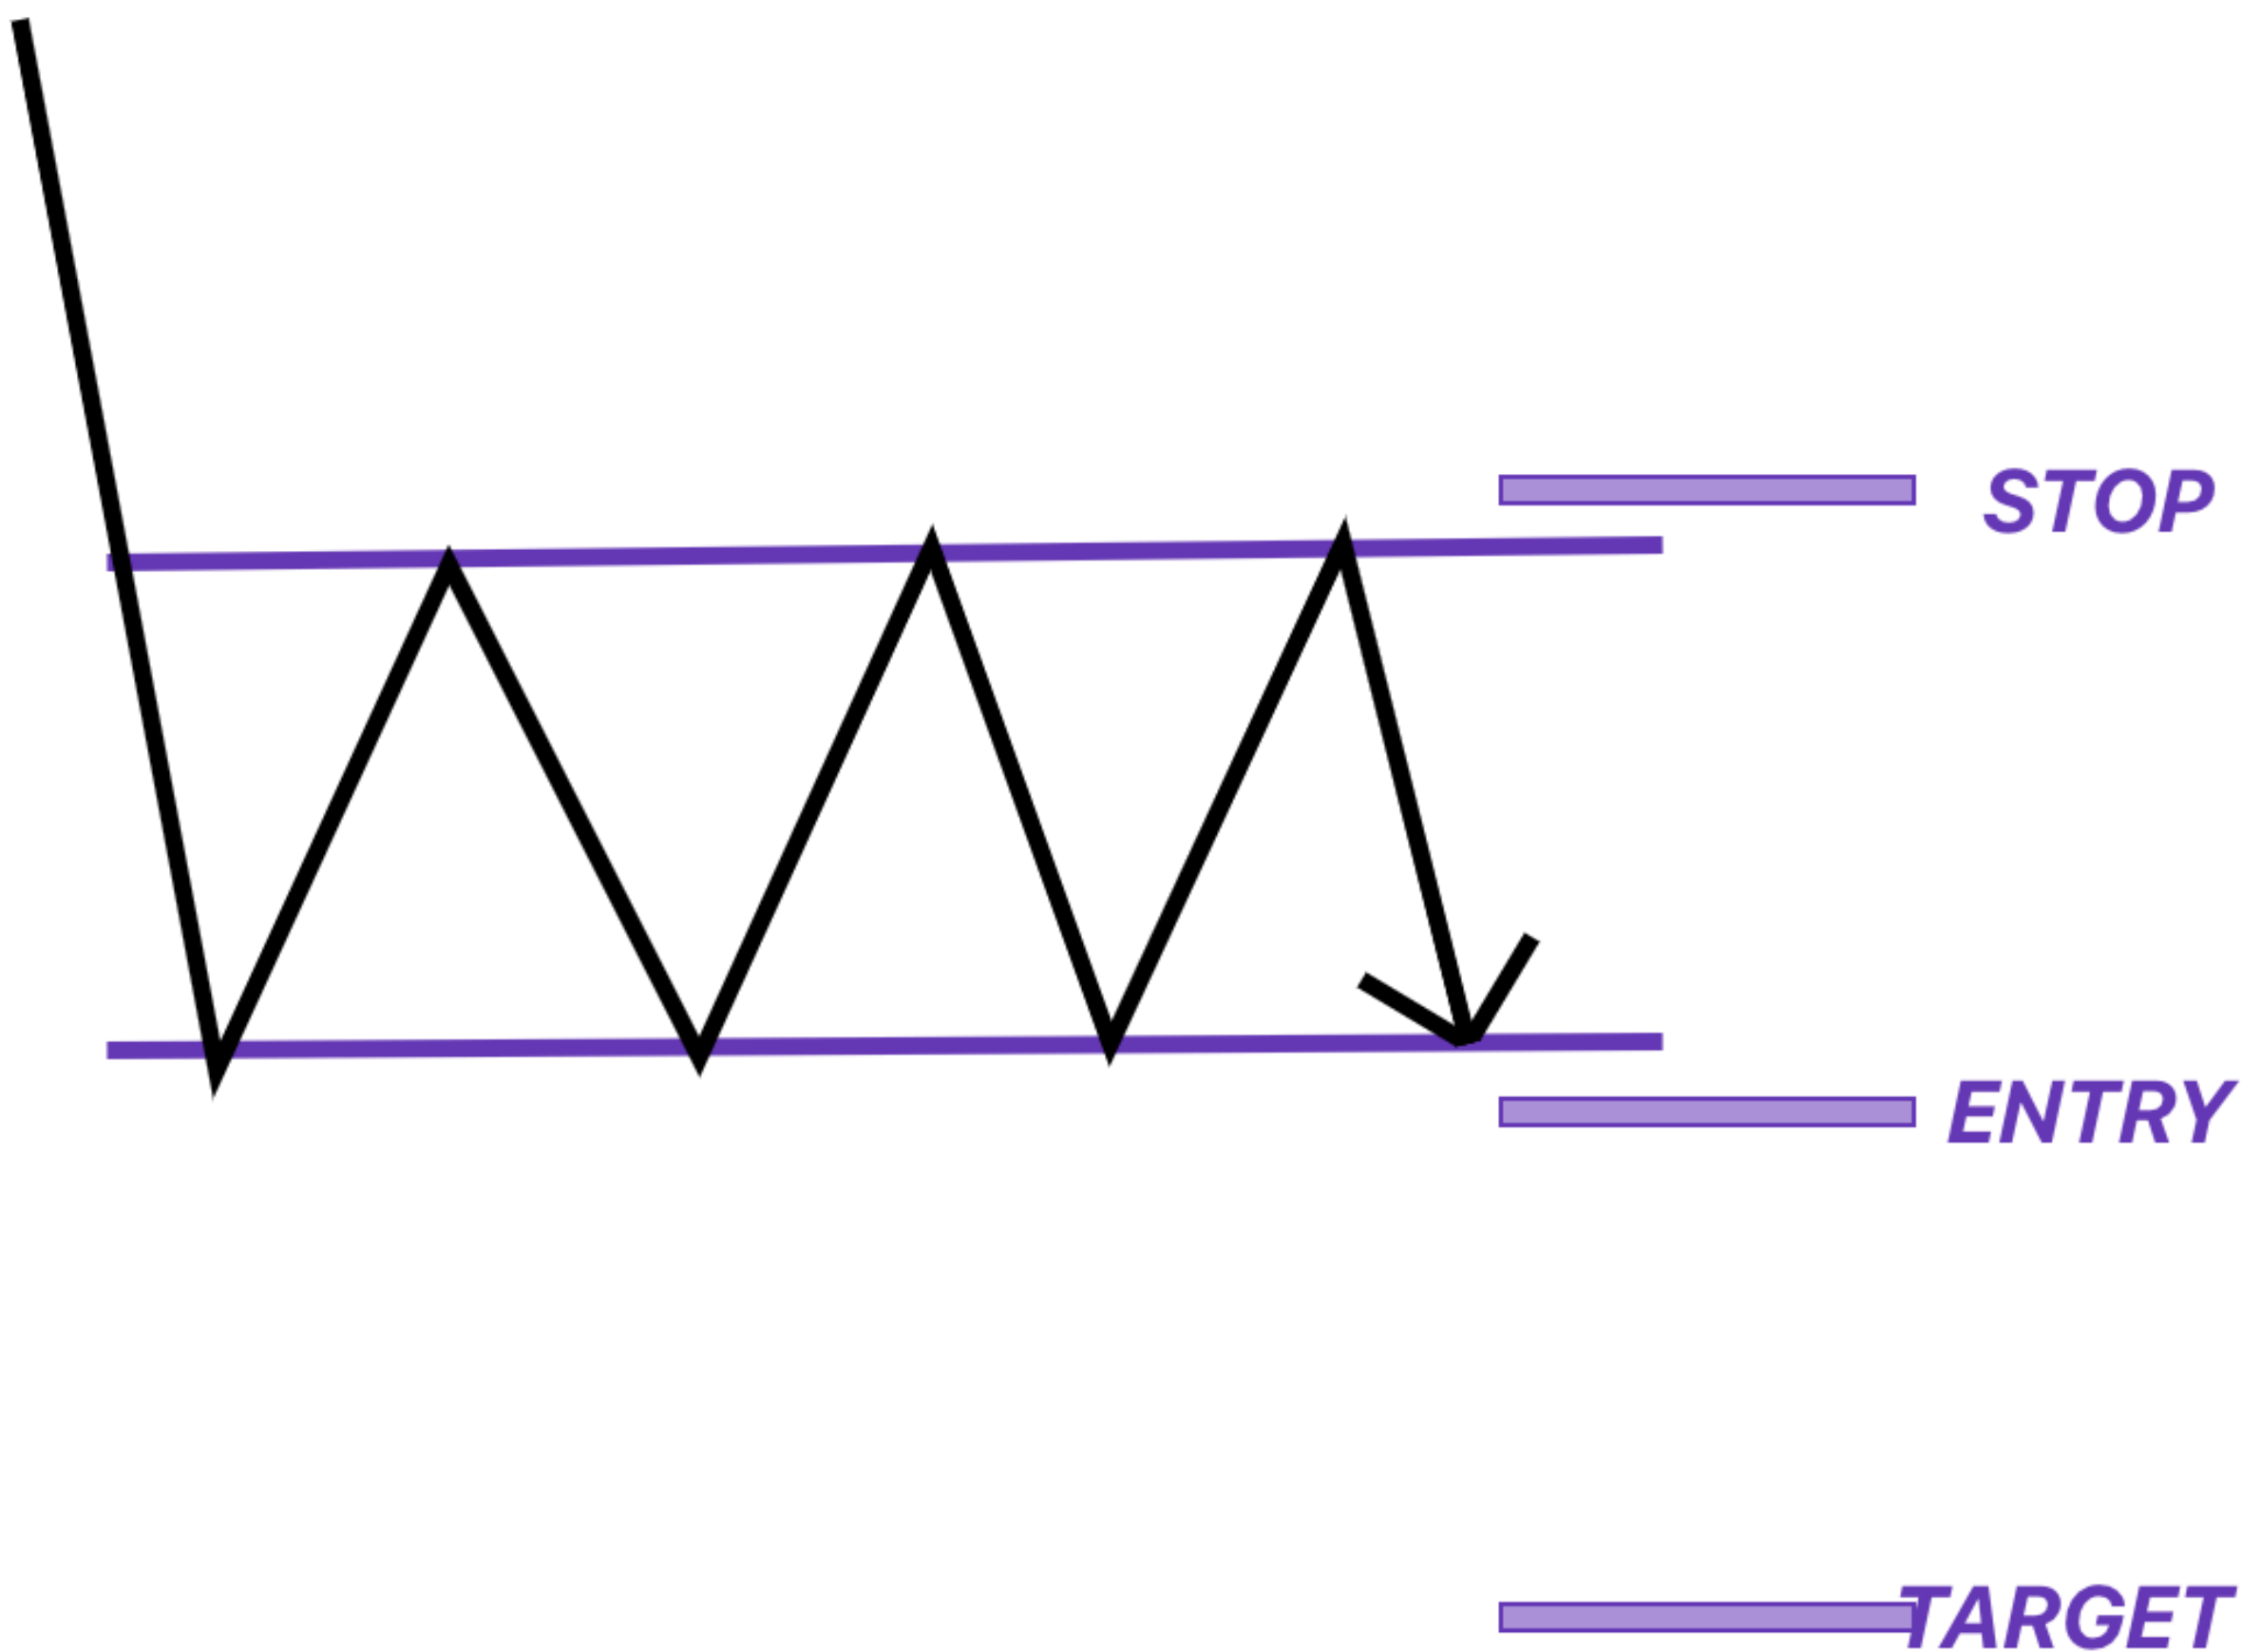

RAISING WEDGE

SHORT ENTRY

When the price breaks the lower trend line, the security is expected to reverse and trend lower. Traders identifying bearish reversal signals would want to look for trades that benefit from the security's fall in price

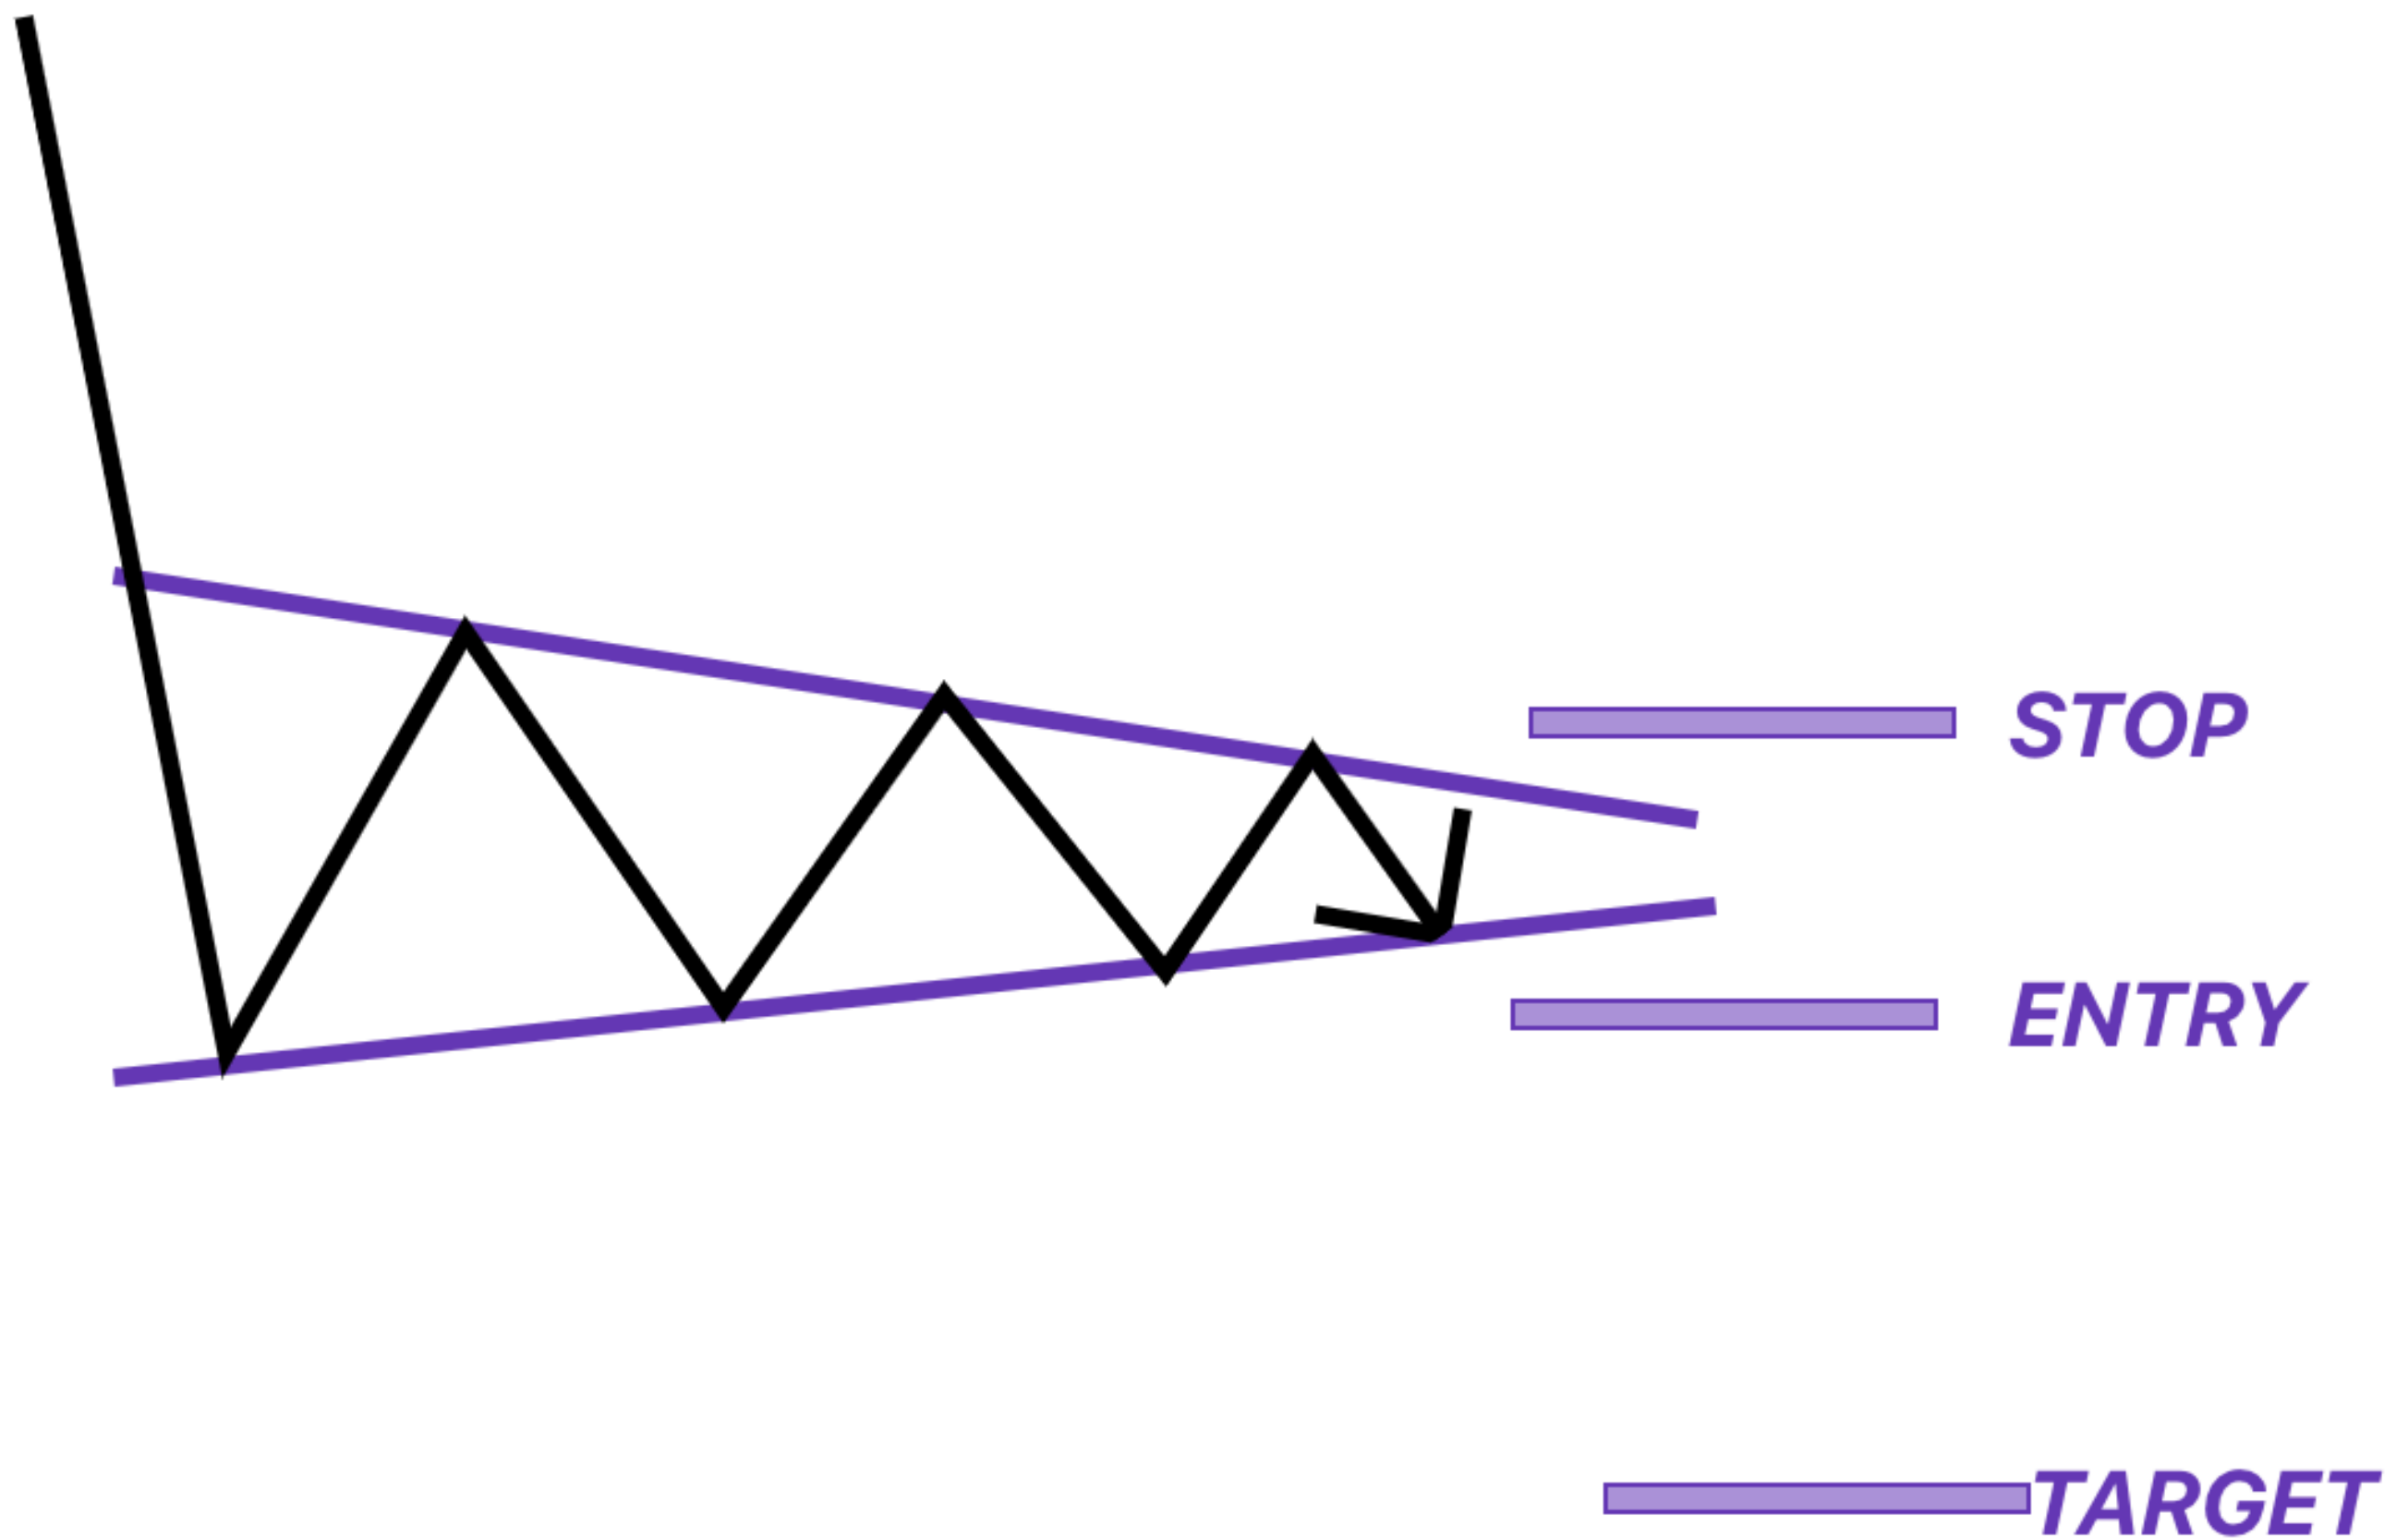

BEARISH RECTANGLE

SHORT ENTRY

When the price breaks the lower trend line, the security is expected to reverse and trend lower. Traders identifying bearish reversal signals would want to look for trades that benefit from the security's fall in price

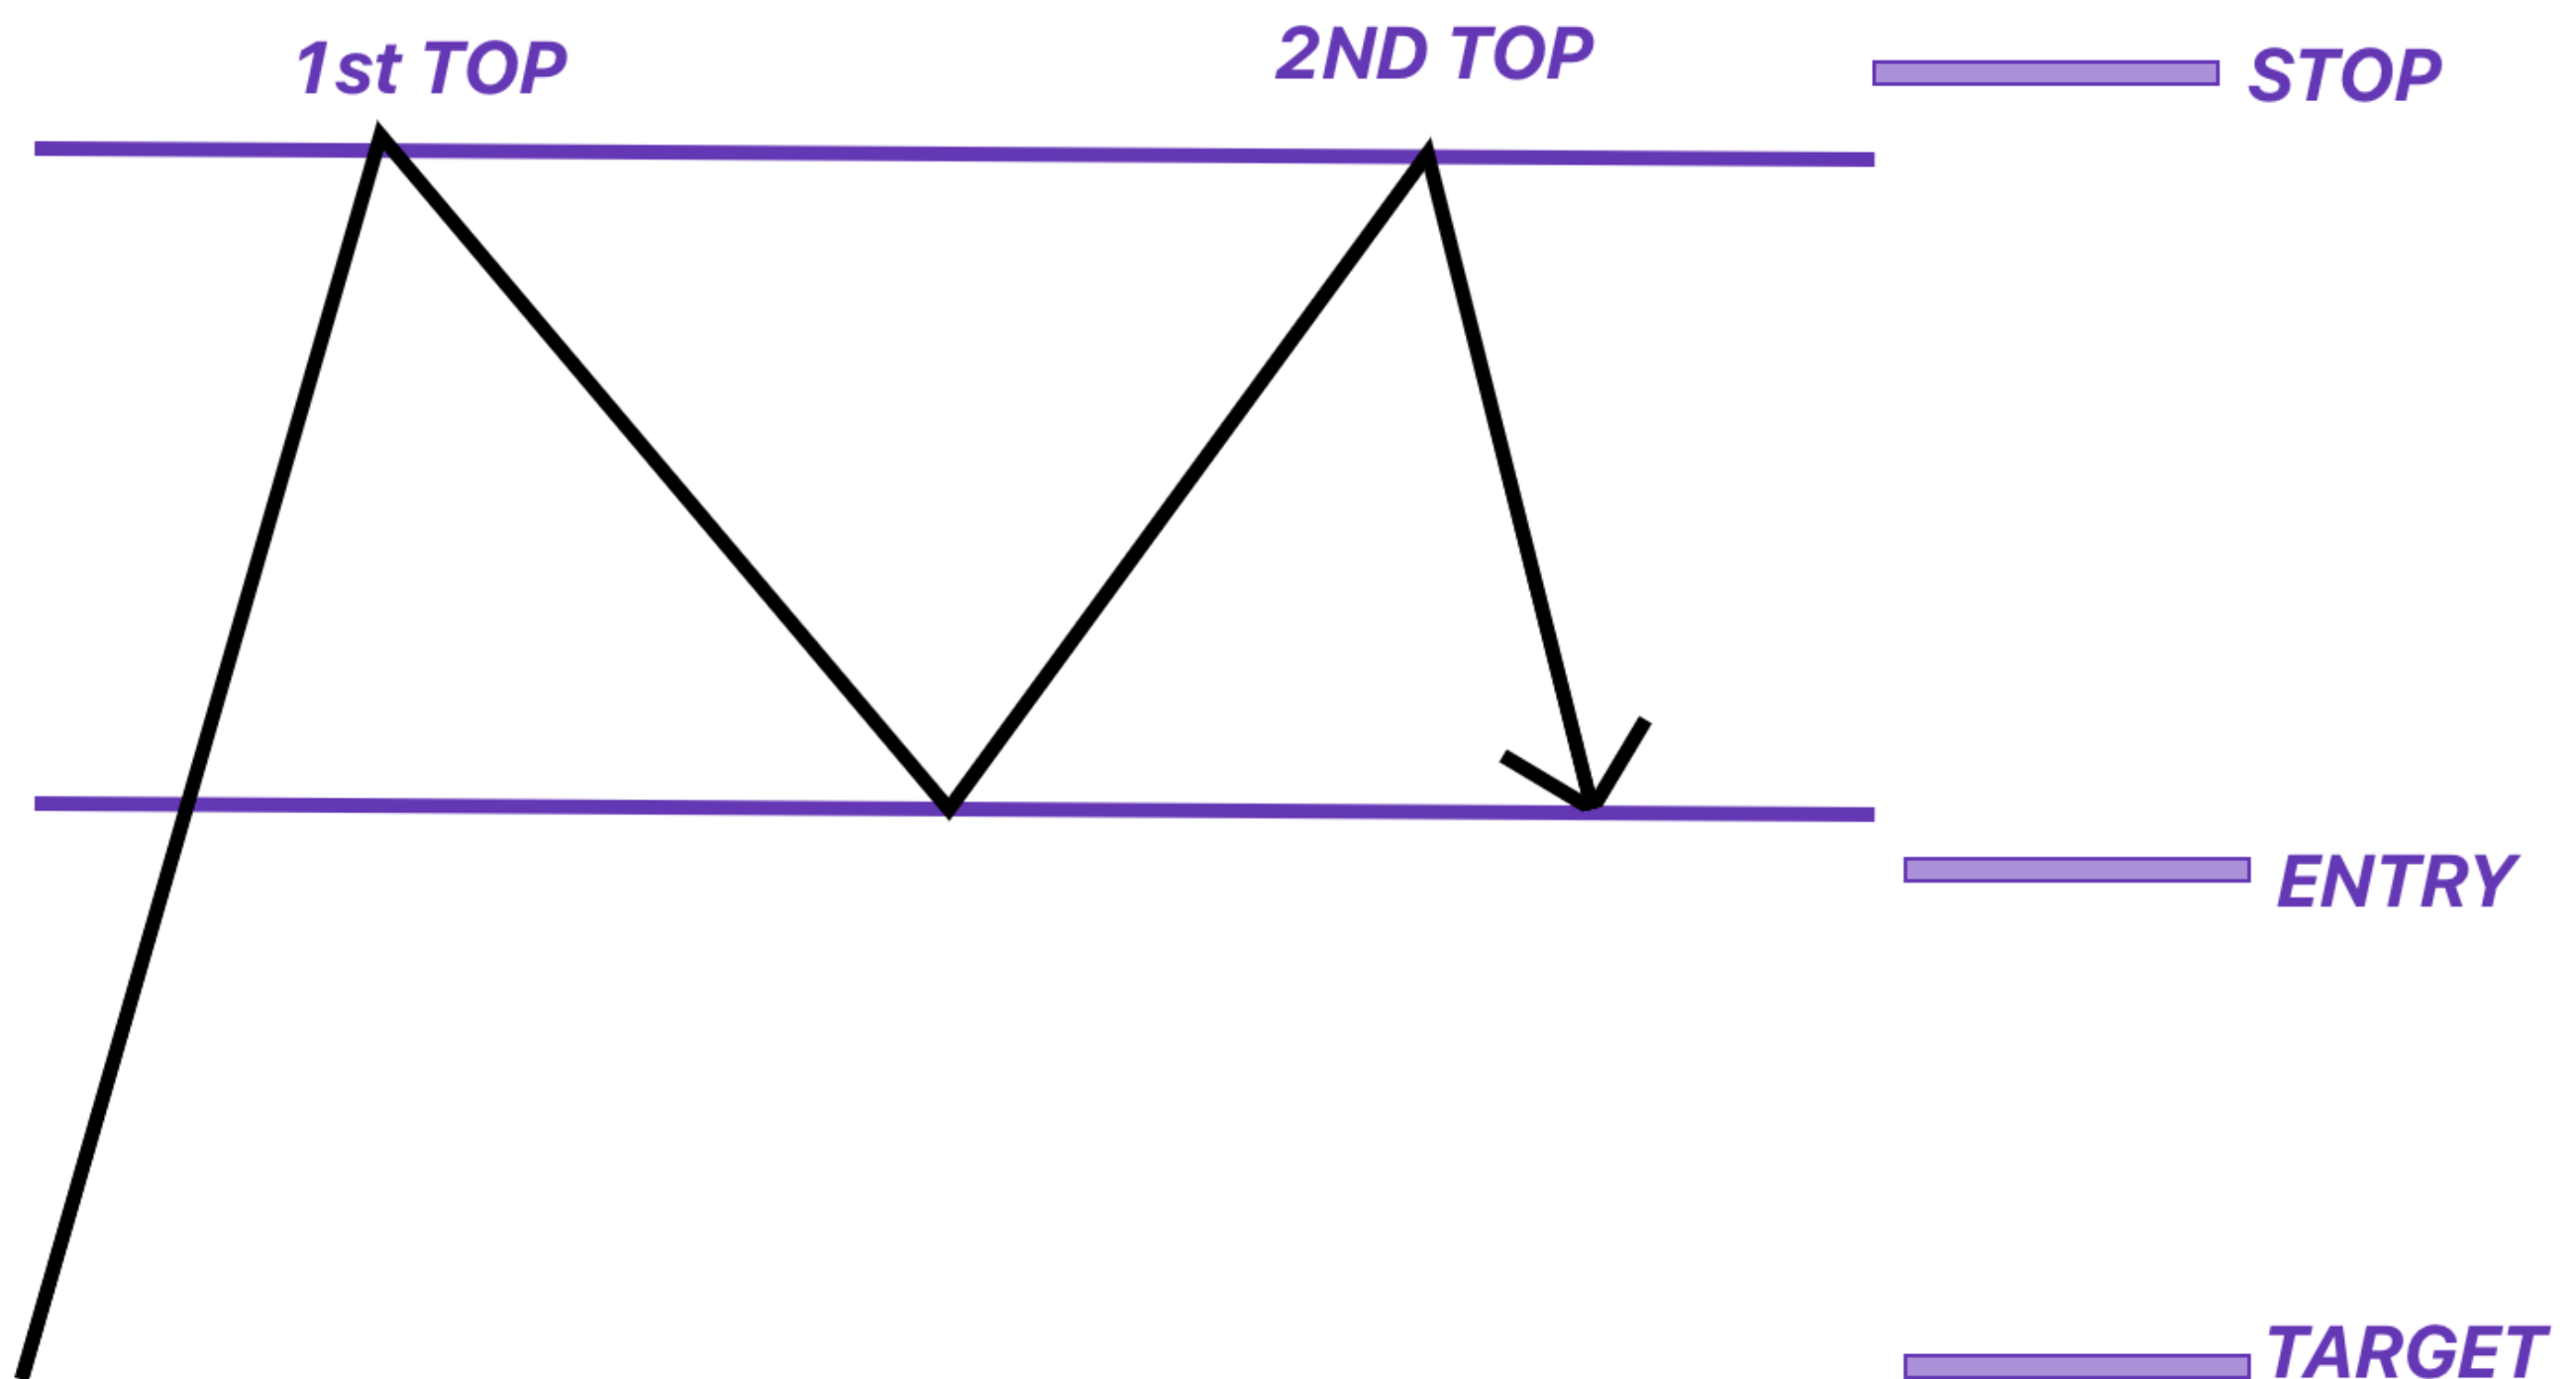

BEARISH PENNANT

SHORT ENTRY

When the price breaks the lower trend line, the security is expected to reverse and trend lower. Traders identifying bearish reversal signals would want to look for trades that benefit from the security's fall in price

SHORT ENTRY

When the price breaks the lower trend line, the security is expected to reverse and trend lower. Traders identifying bearish reversal signals would want to look for trades that benefit from the security's fall in price

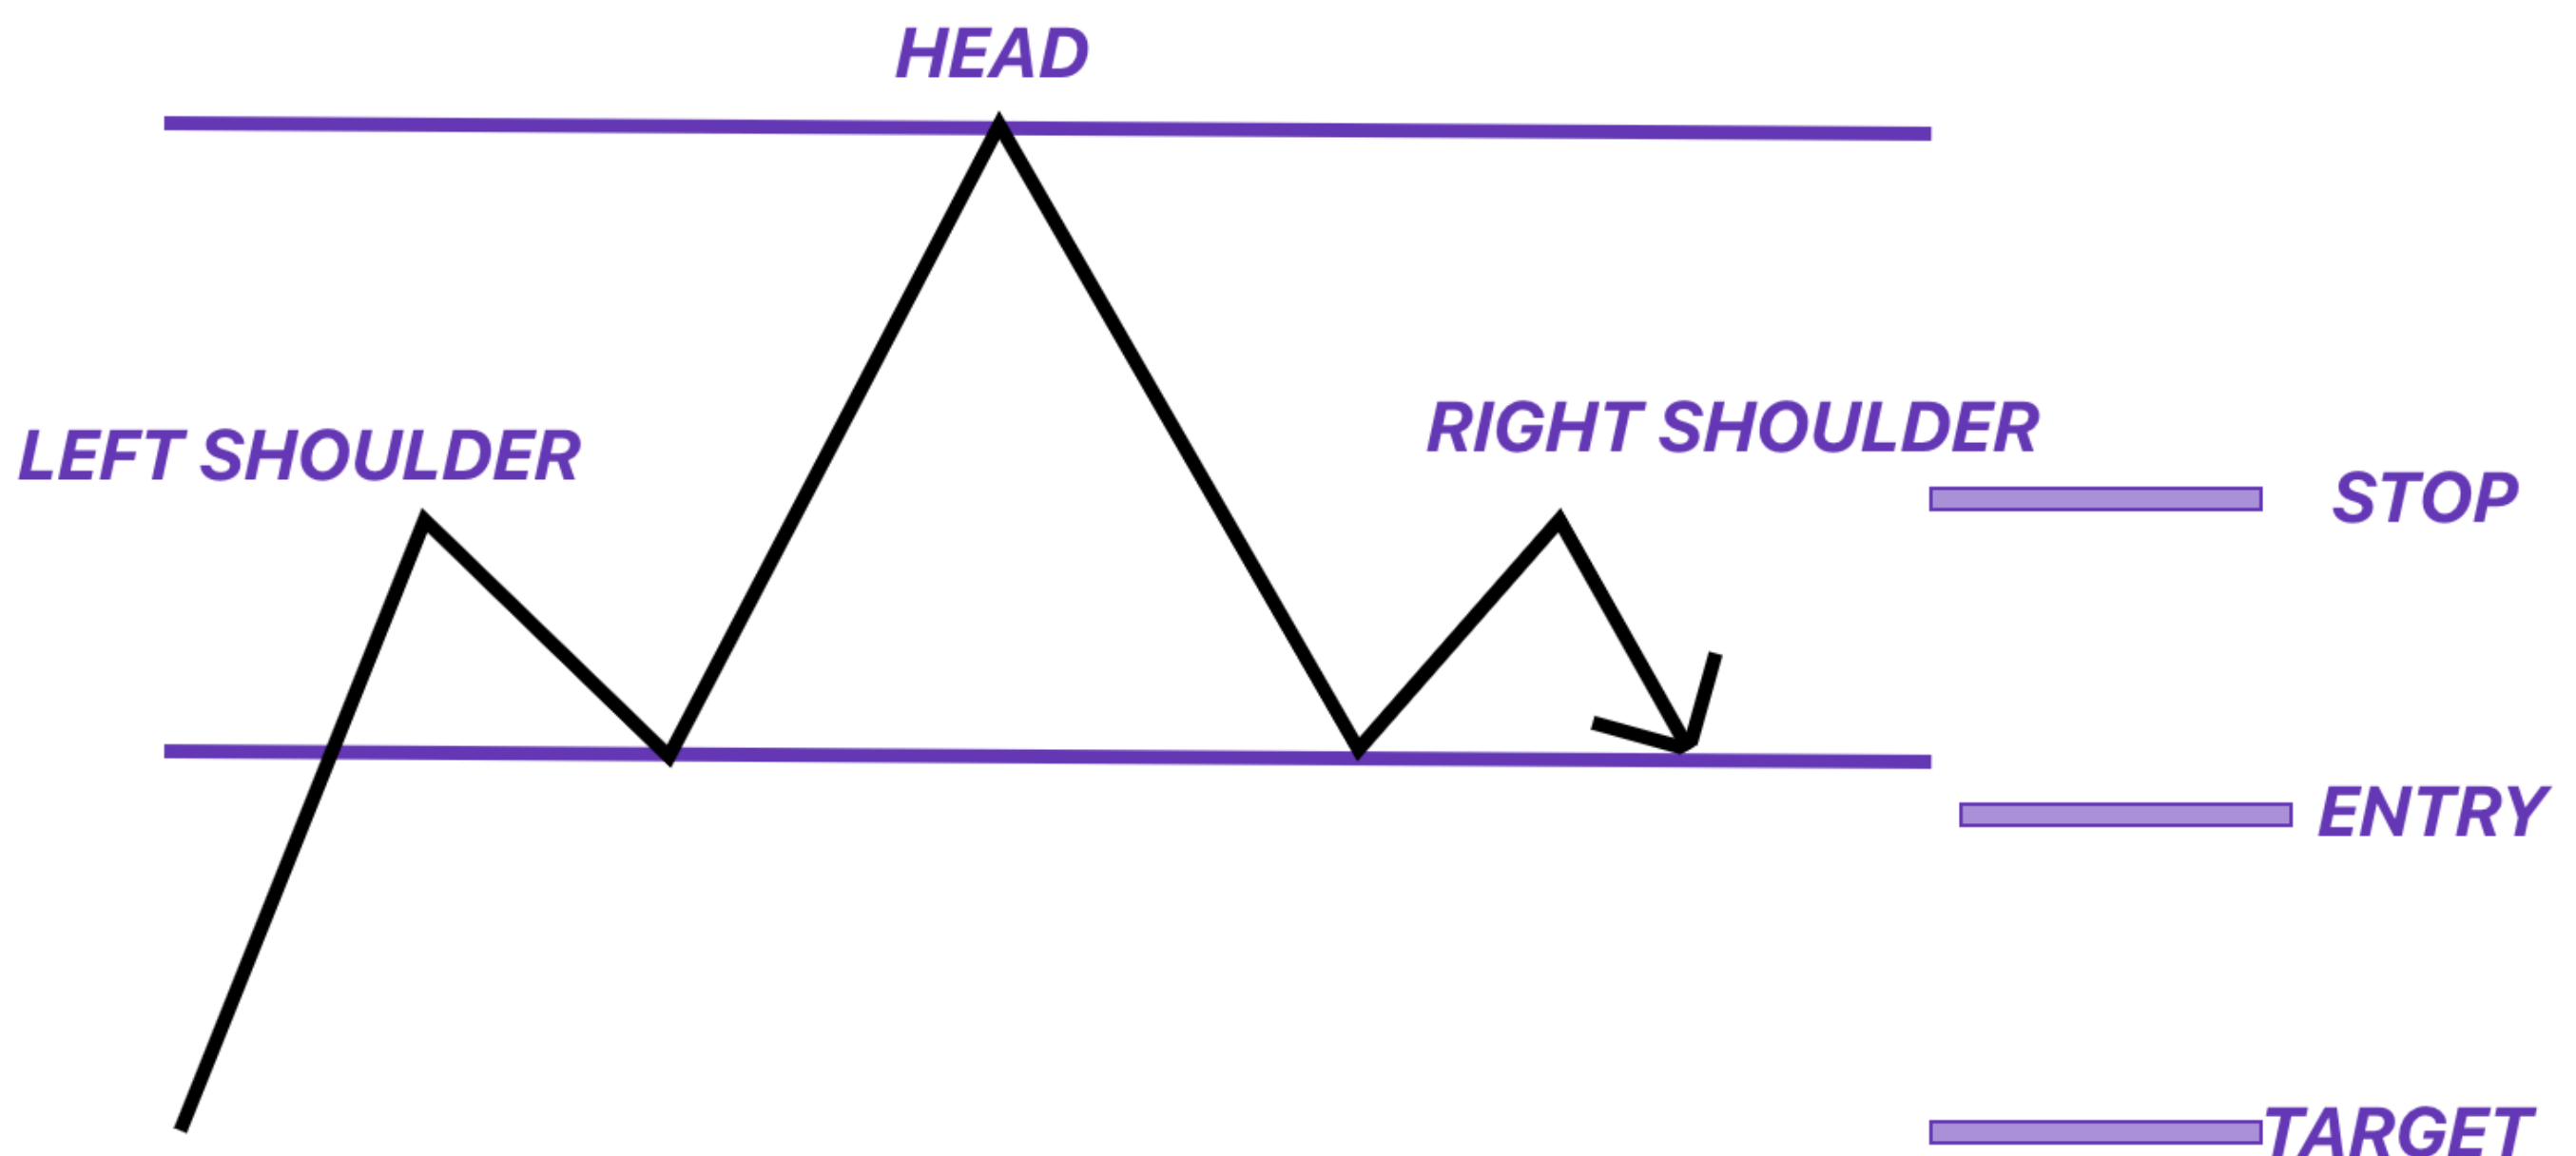

DOUBLE BOTTOM

LONG ENTRY

When the price breaks the upper trend line, the security is expected to reverse and trend higher. Traders identifying bullish reversal signals would want to look for trades that benefit from the security's rise in price

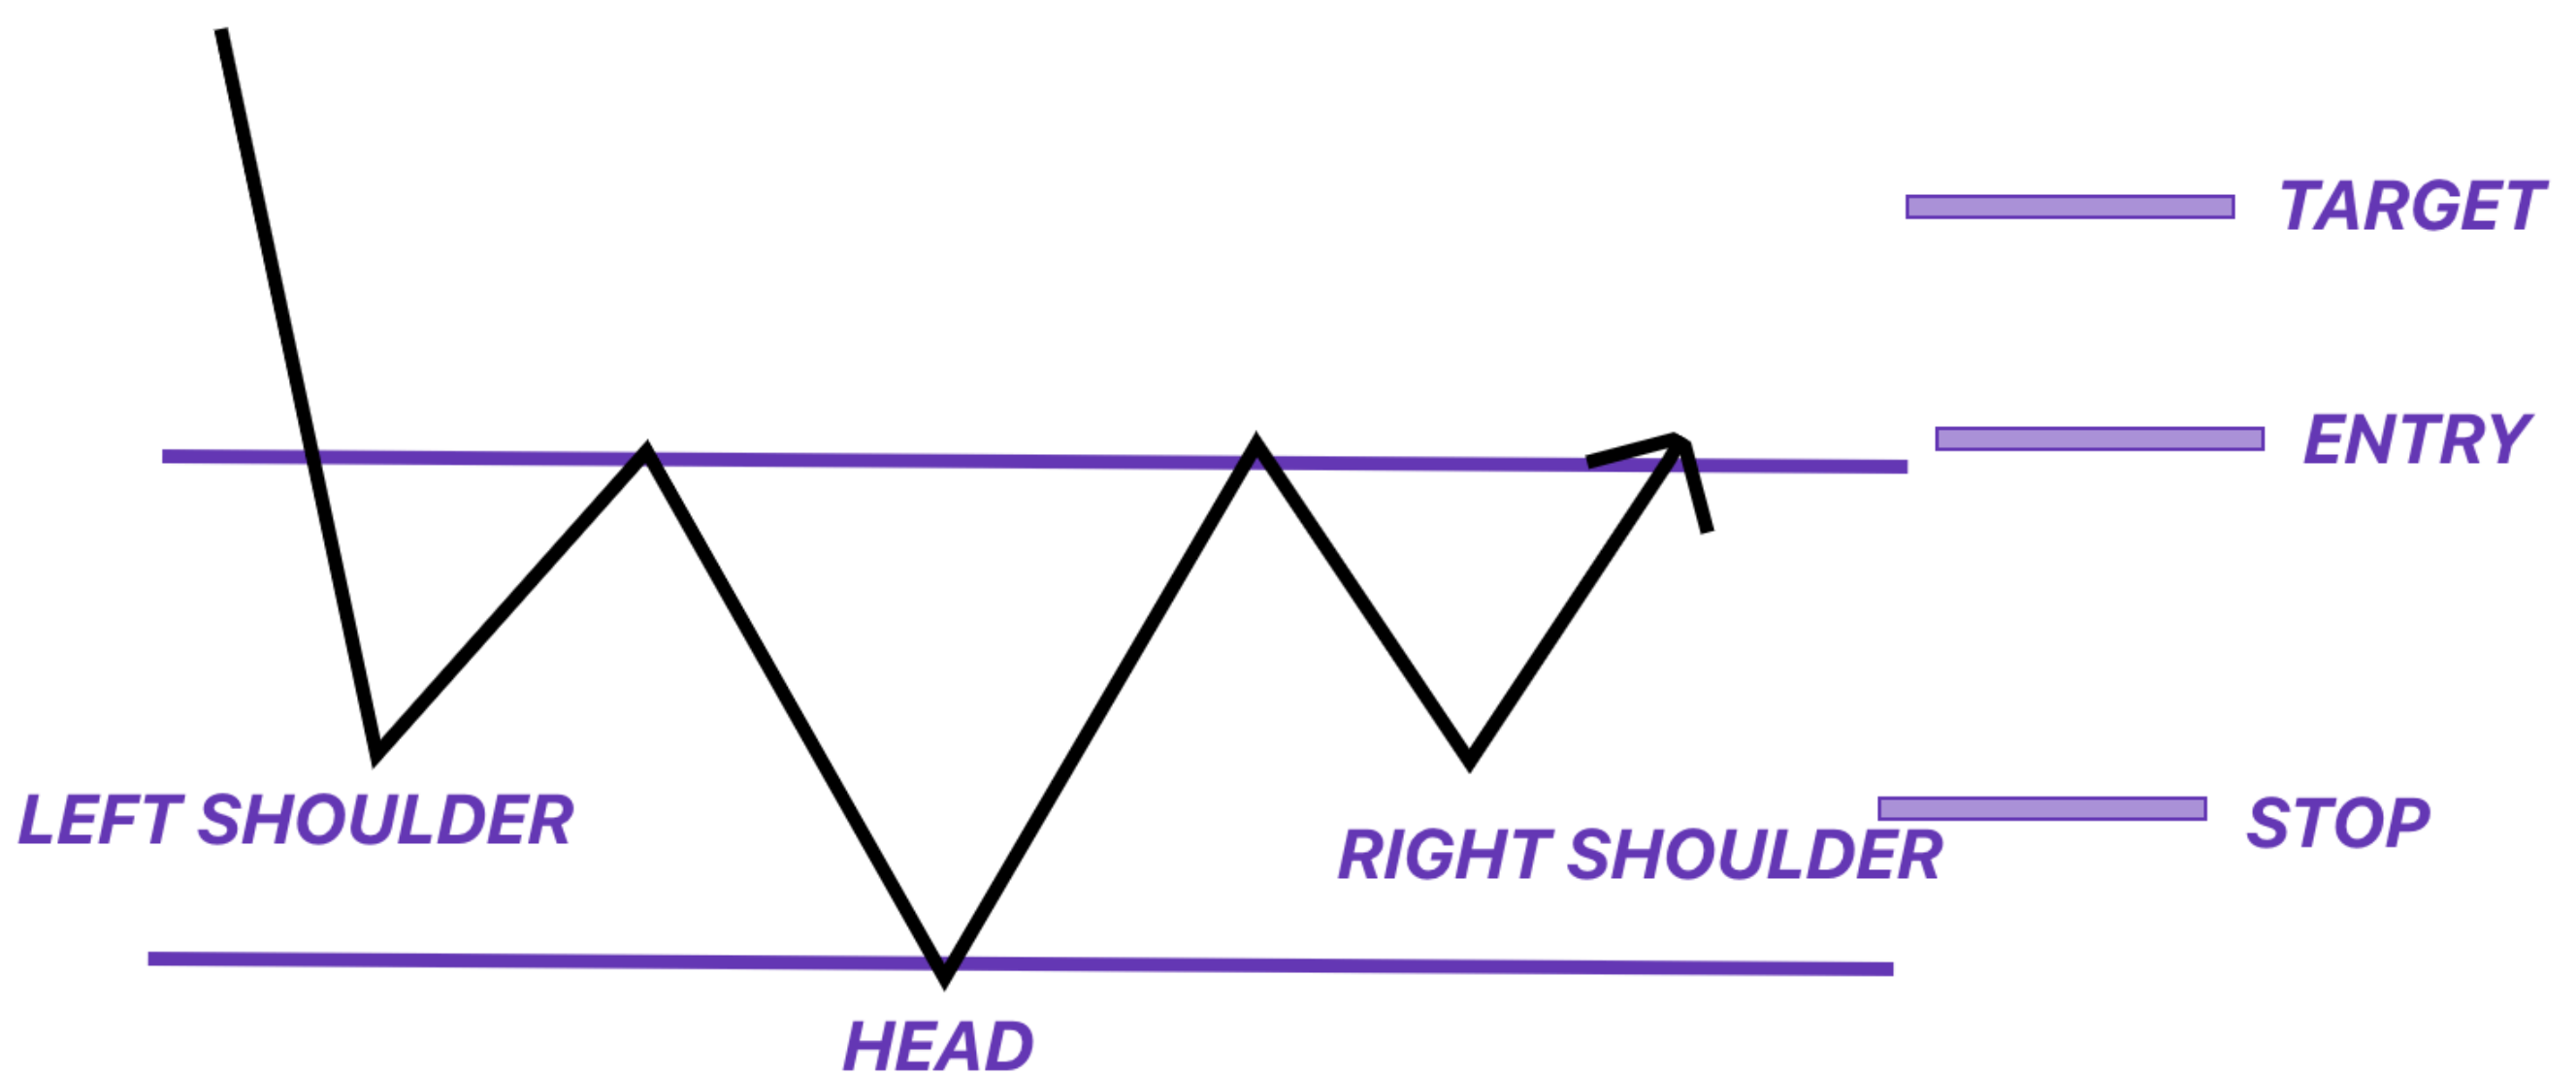

HEAD AND SHOULDER

SHORT ENTRY

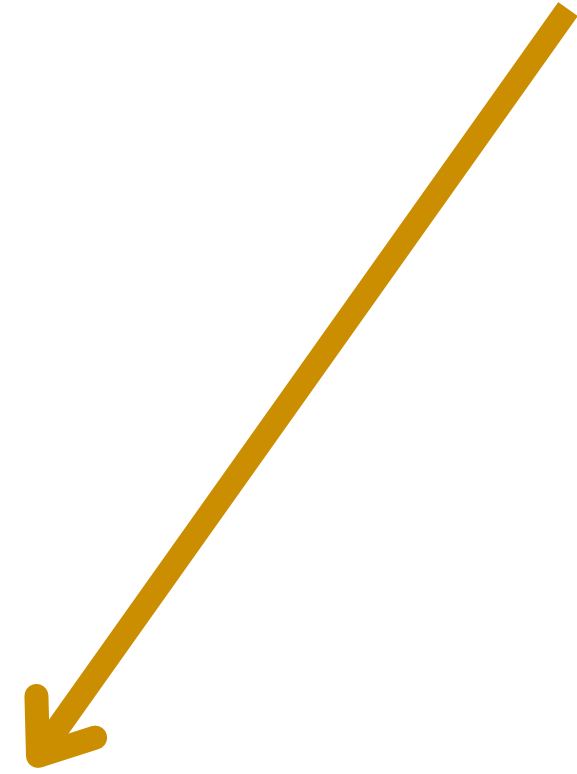

When the price breaks the lower trend line, the security is expected to reverse and trend lower. Traders identifying bearish reversal signals would want to look for trades that benefit from the security's fall in price

INVERSE HEAD AND SHOULDER

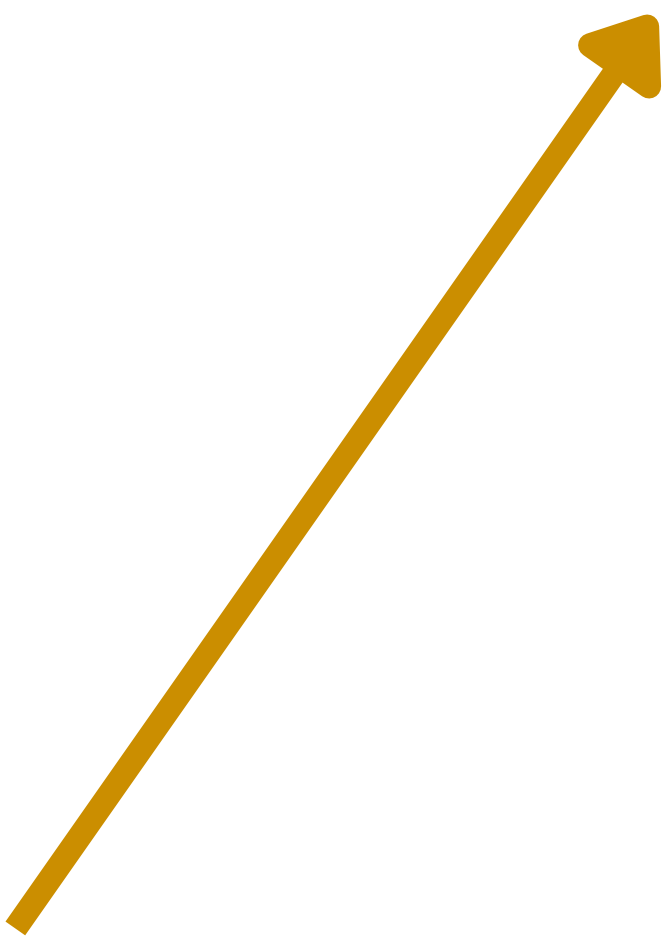

LONG ENTRY

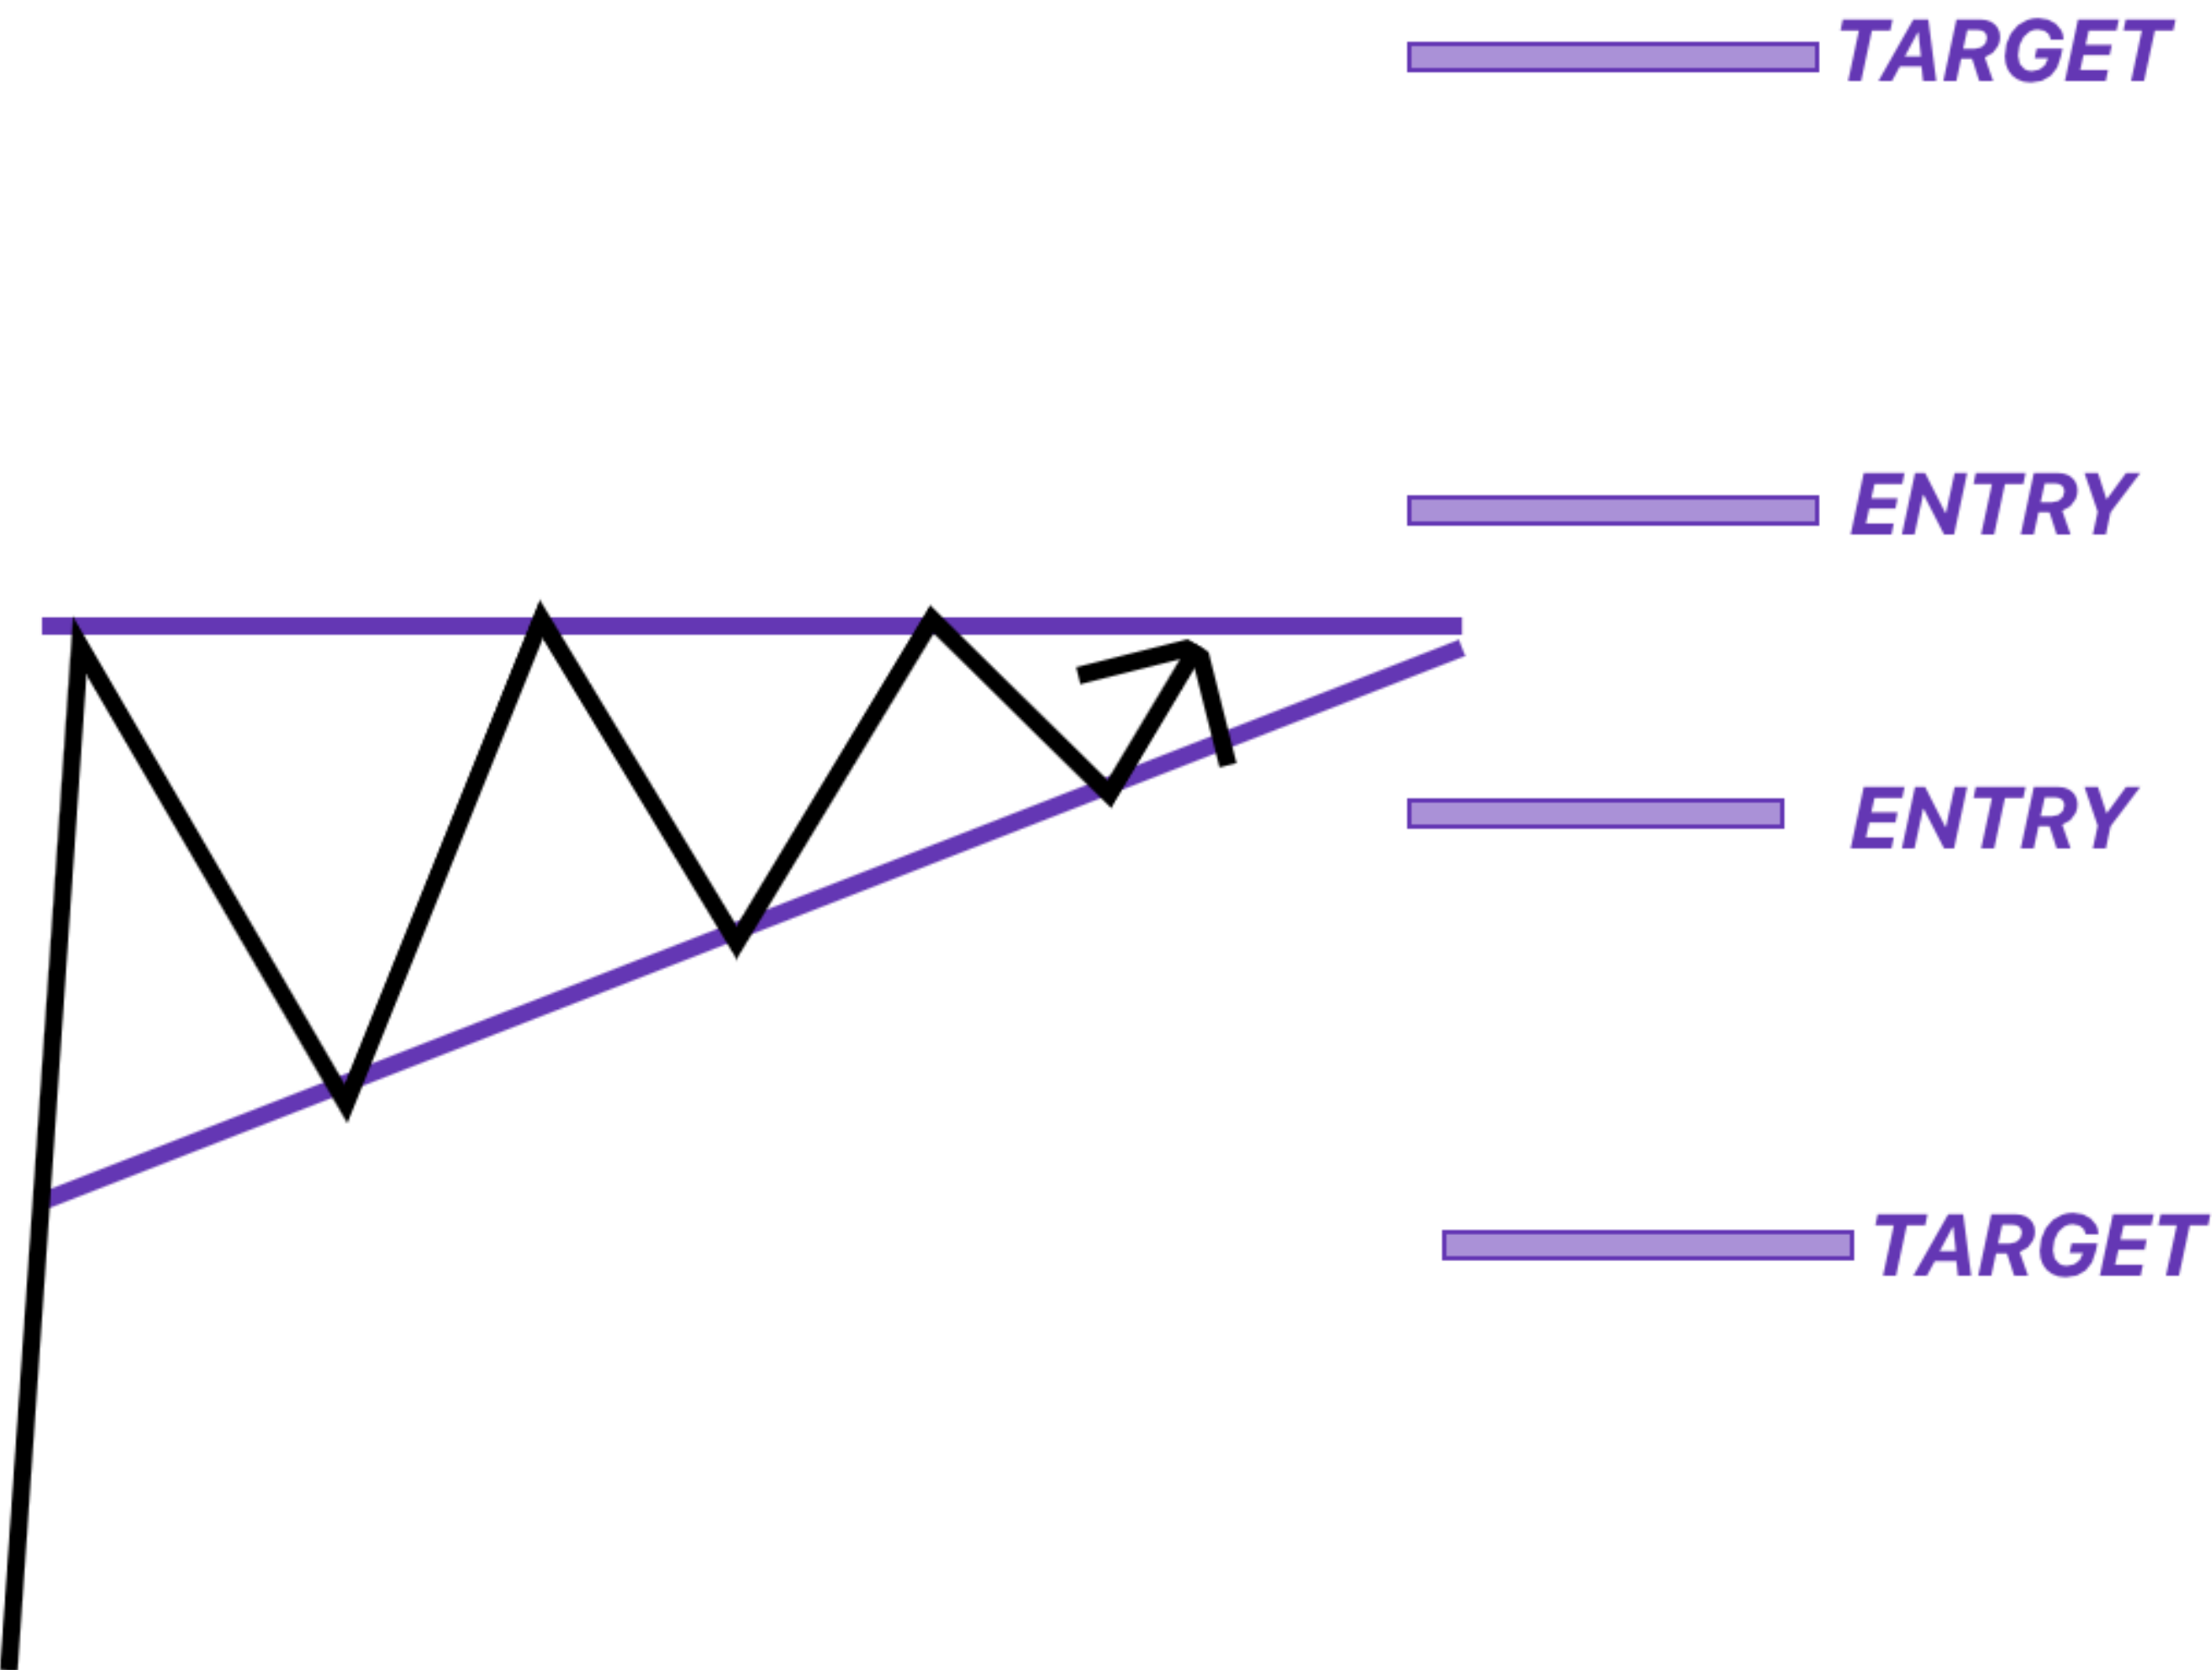

When the price breaks the upper trend line, the security is expected to reverse and trend higher. Traders identifying bullish reversal signals would want to look for trades that benefit from the security's rise in price

BILATERAL CHART PATTERNS

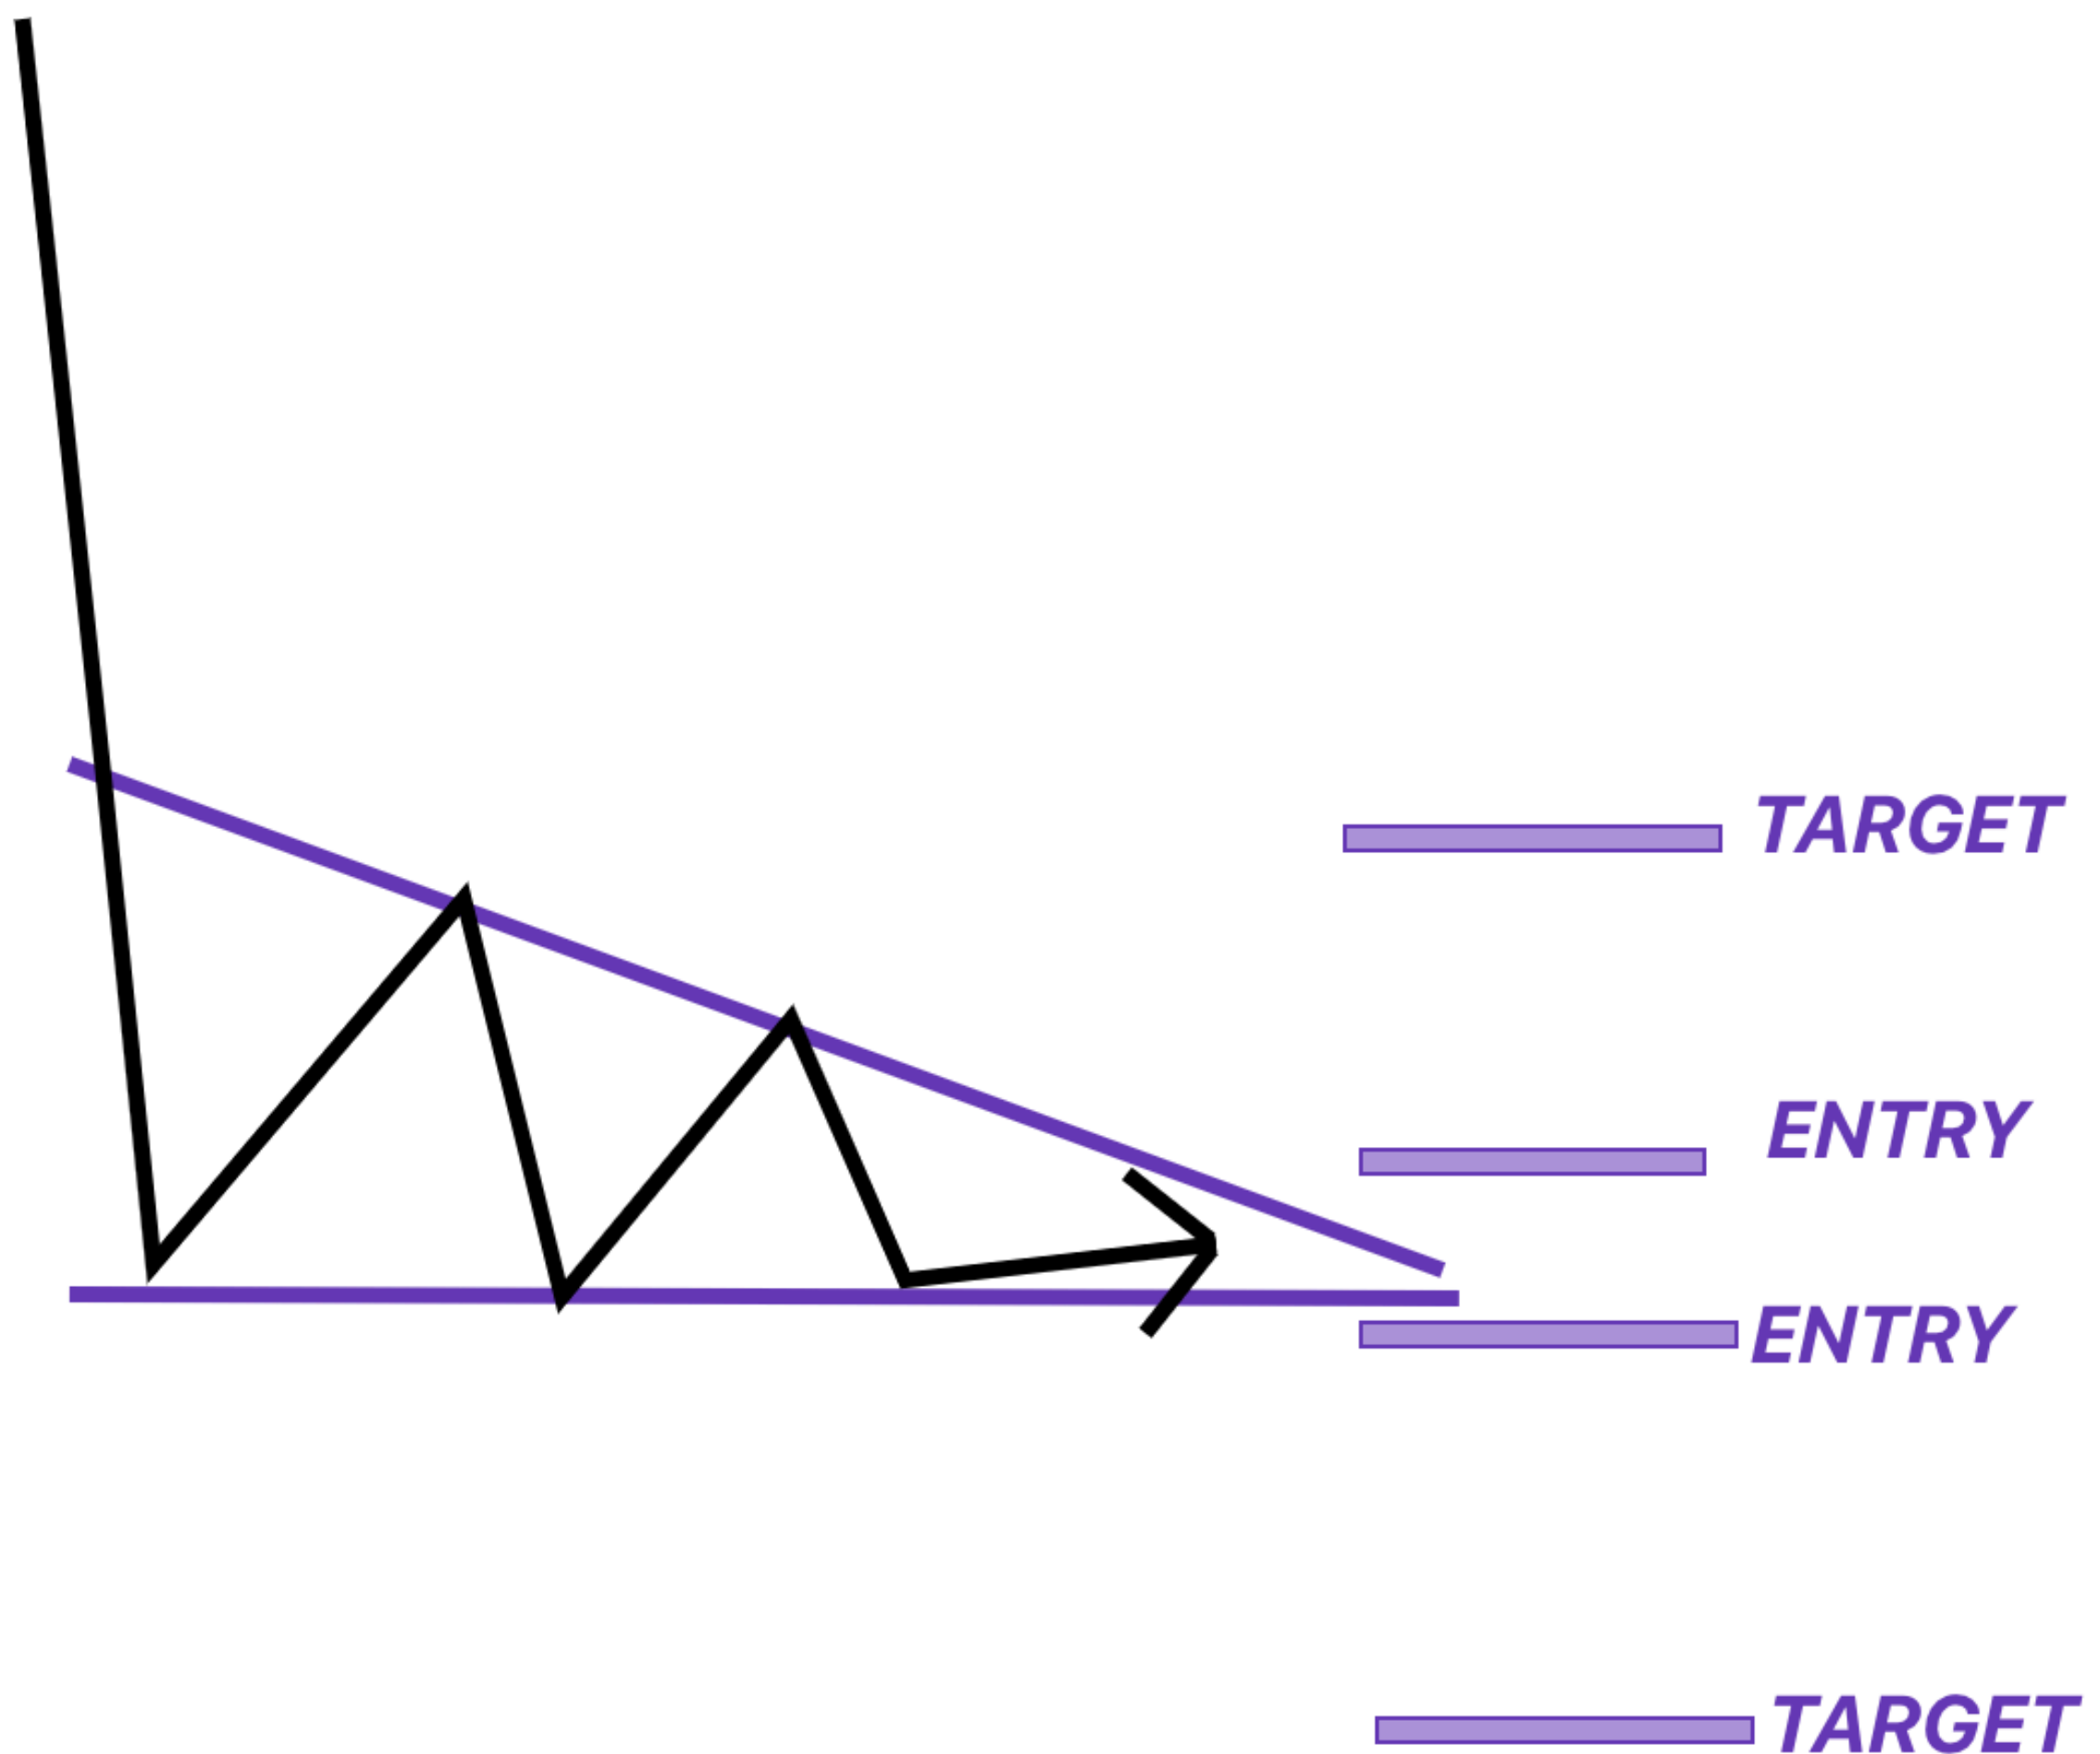

ASCENDING TRIANGLE

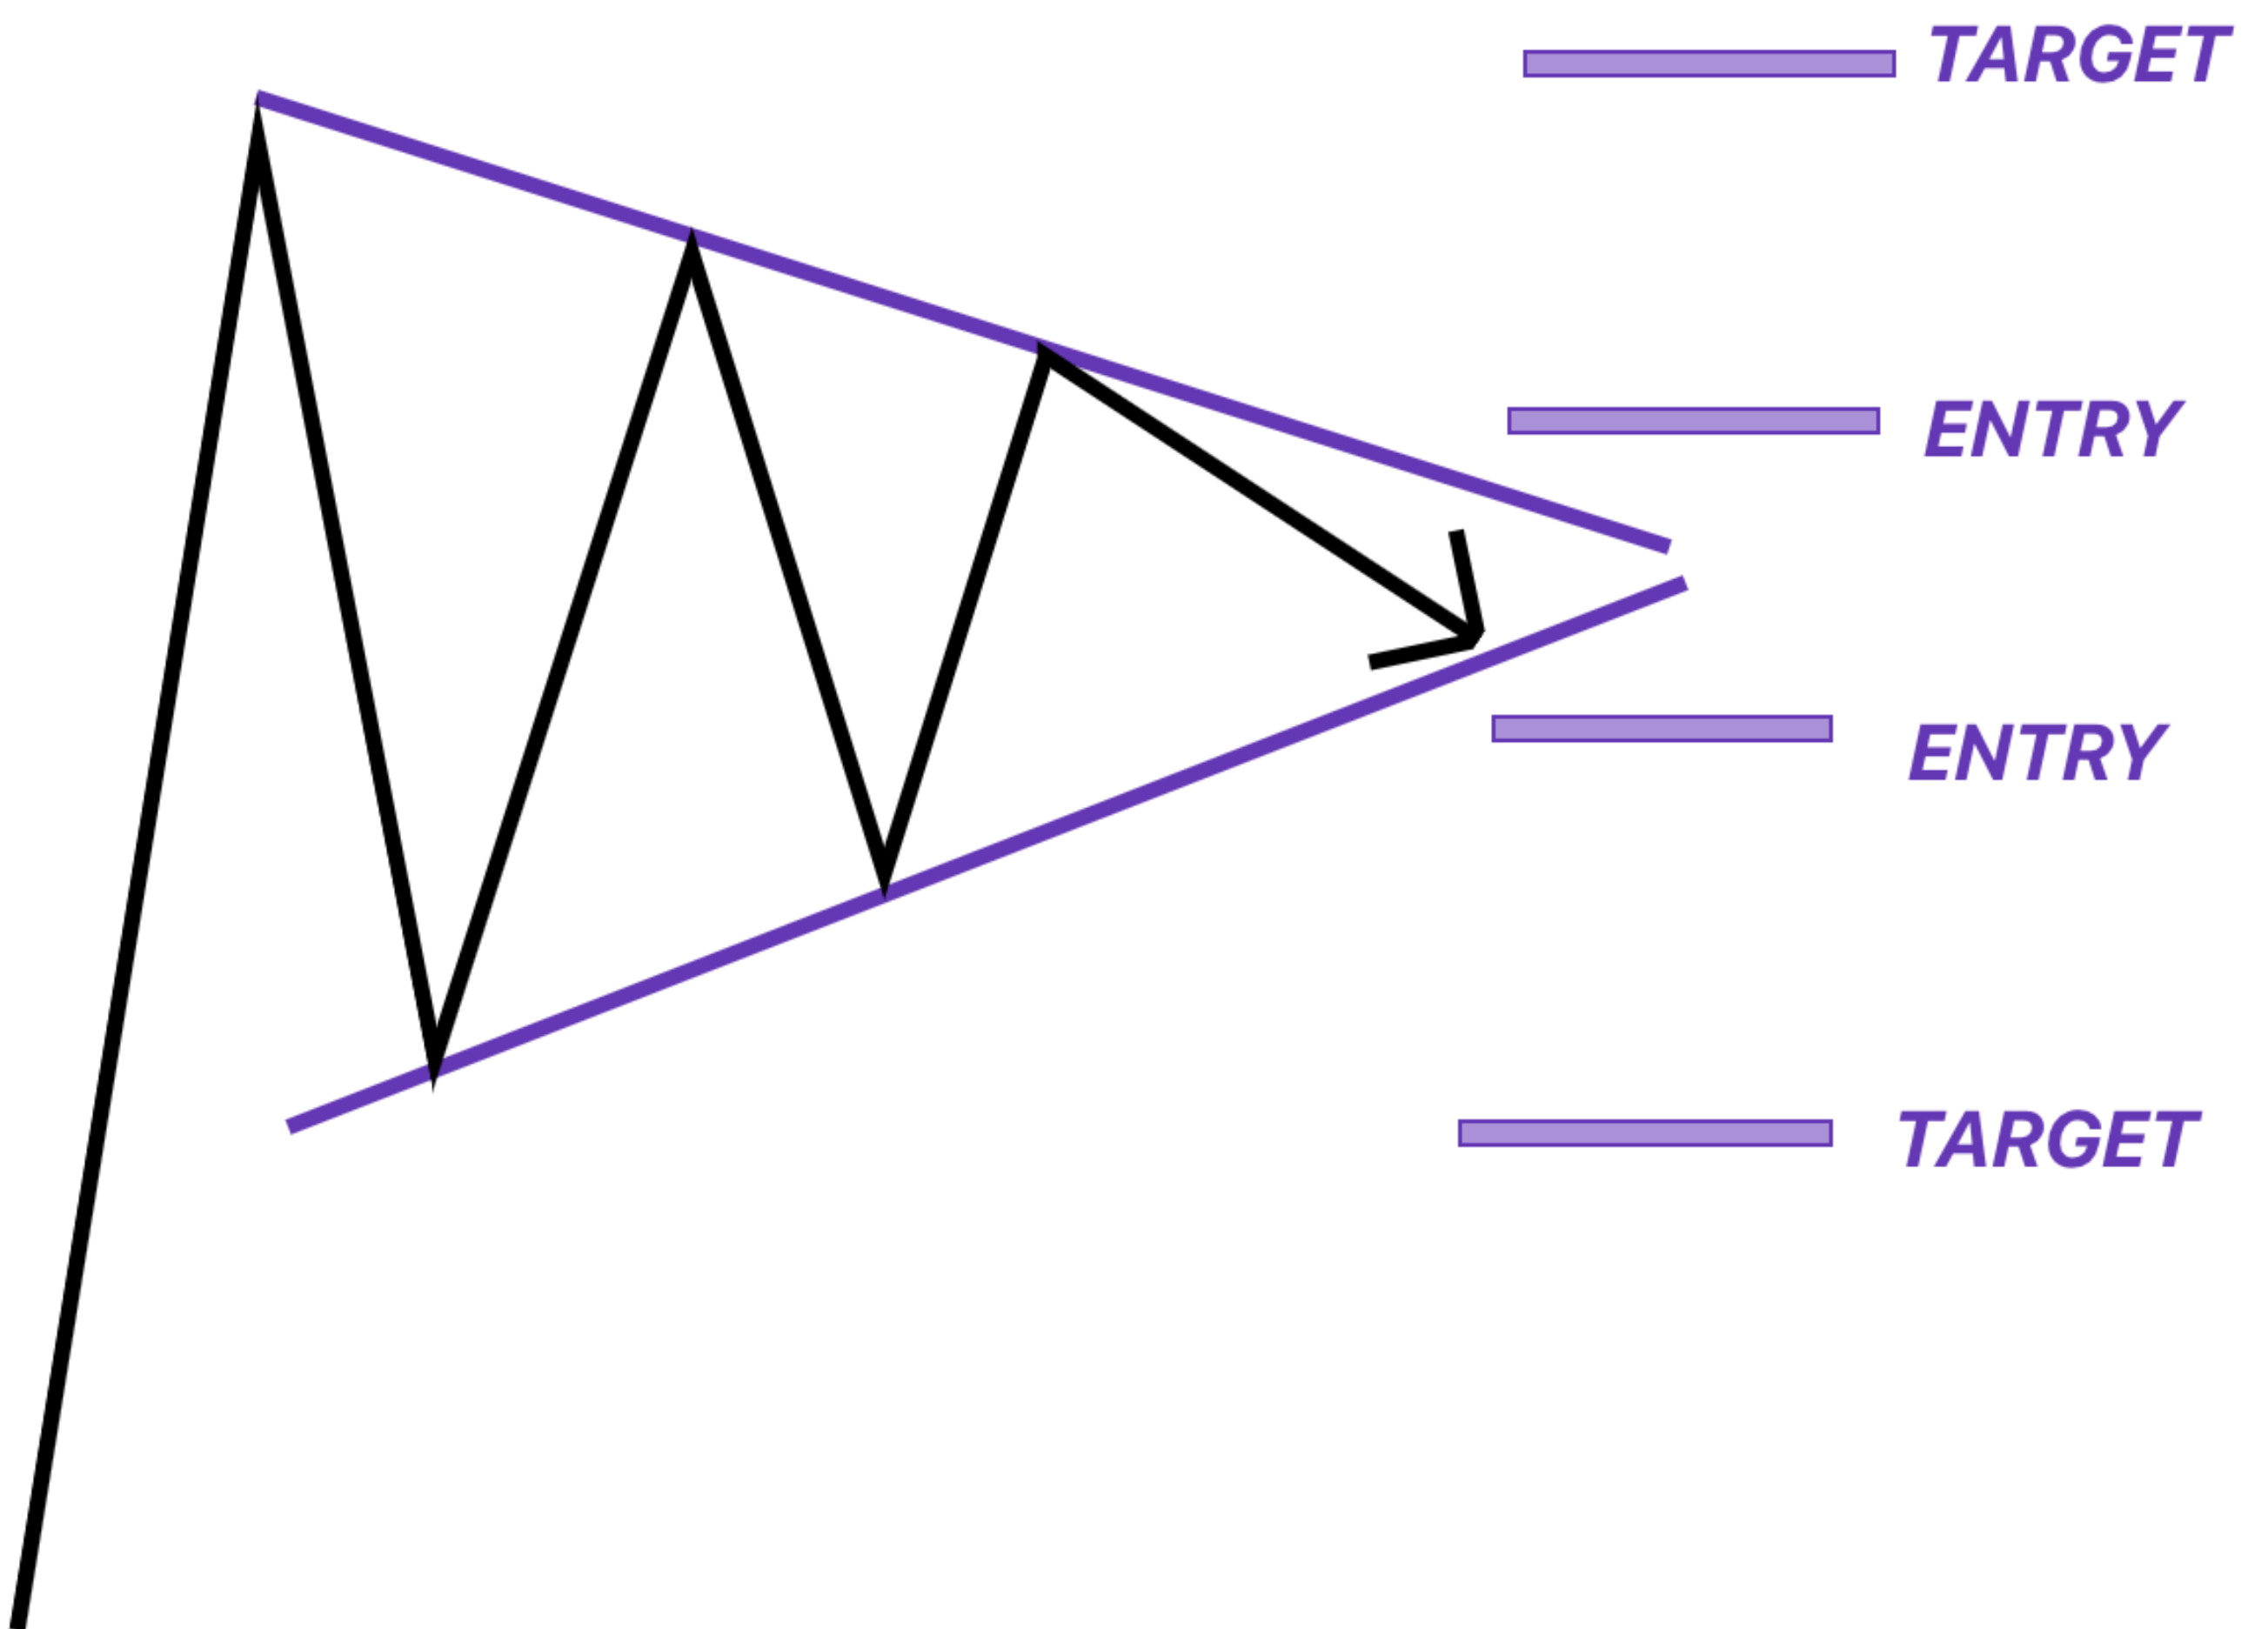

The price can breakdown or breakout in either sides.

DECENDING TRIANGLE

The price can breakdown or breakout in either sides.

SYMMETRICAL TRIANGLE

The price can breakdown or breakout in either sides.

CANDLESTICK PATTERNS

HAMMER CANDLE

- **Preceding trend should be downtrend**
- **Hammer Candle should be formed**
- **Potential direction change**

INVERSE HAMMER CANDLE

- **Preceding trend should be downtrend**
- **Inverse Hammer Candle should be formed**
- **Potential direction change**

BULLISH ENGULFING

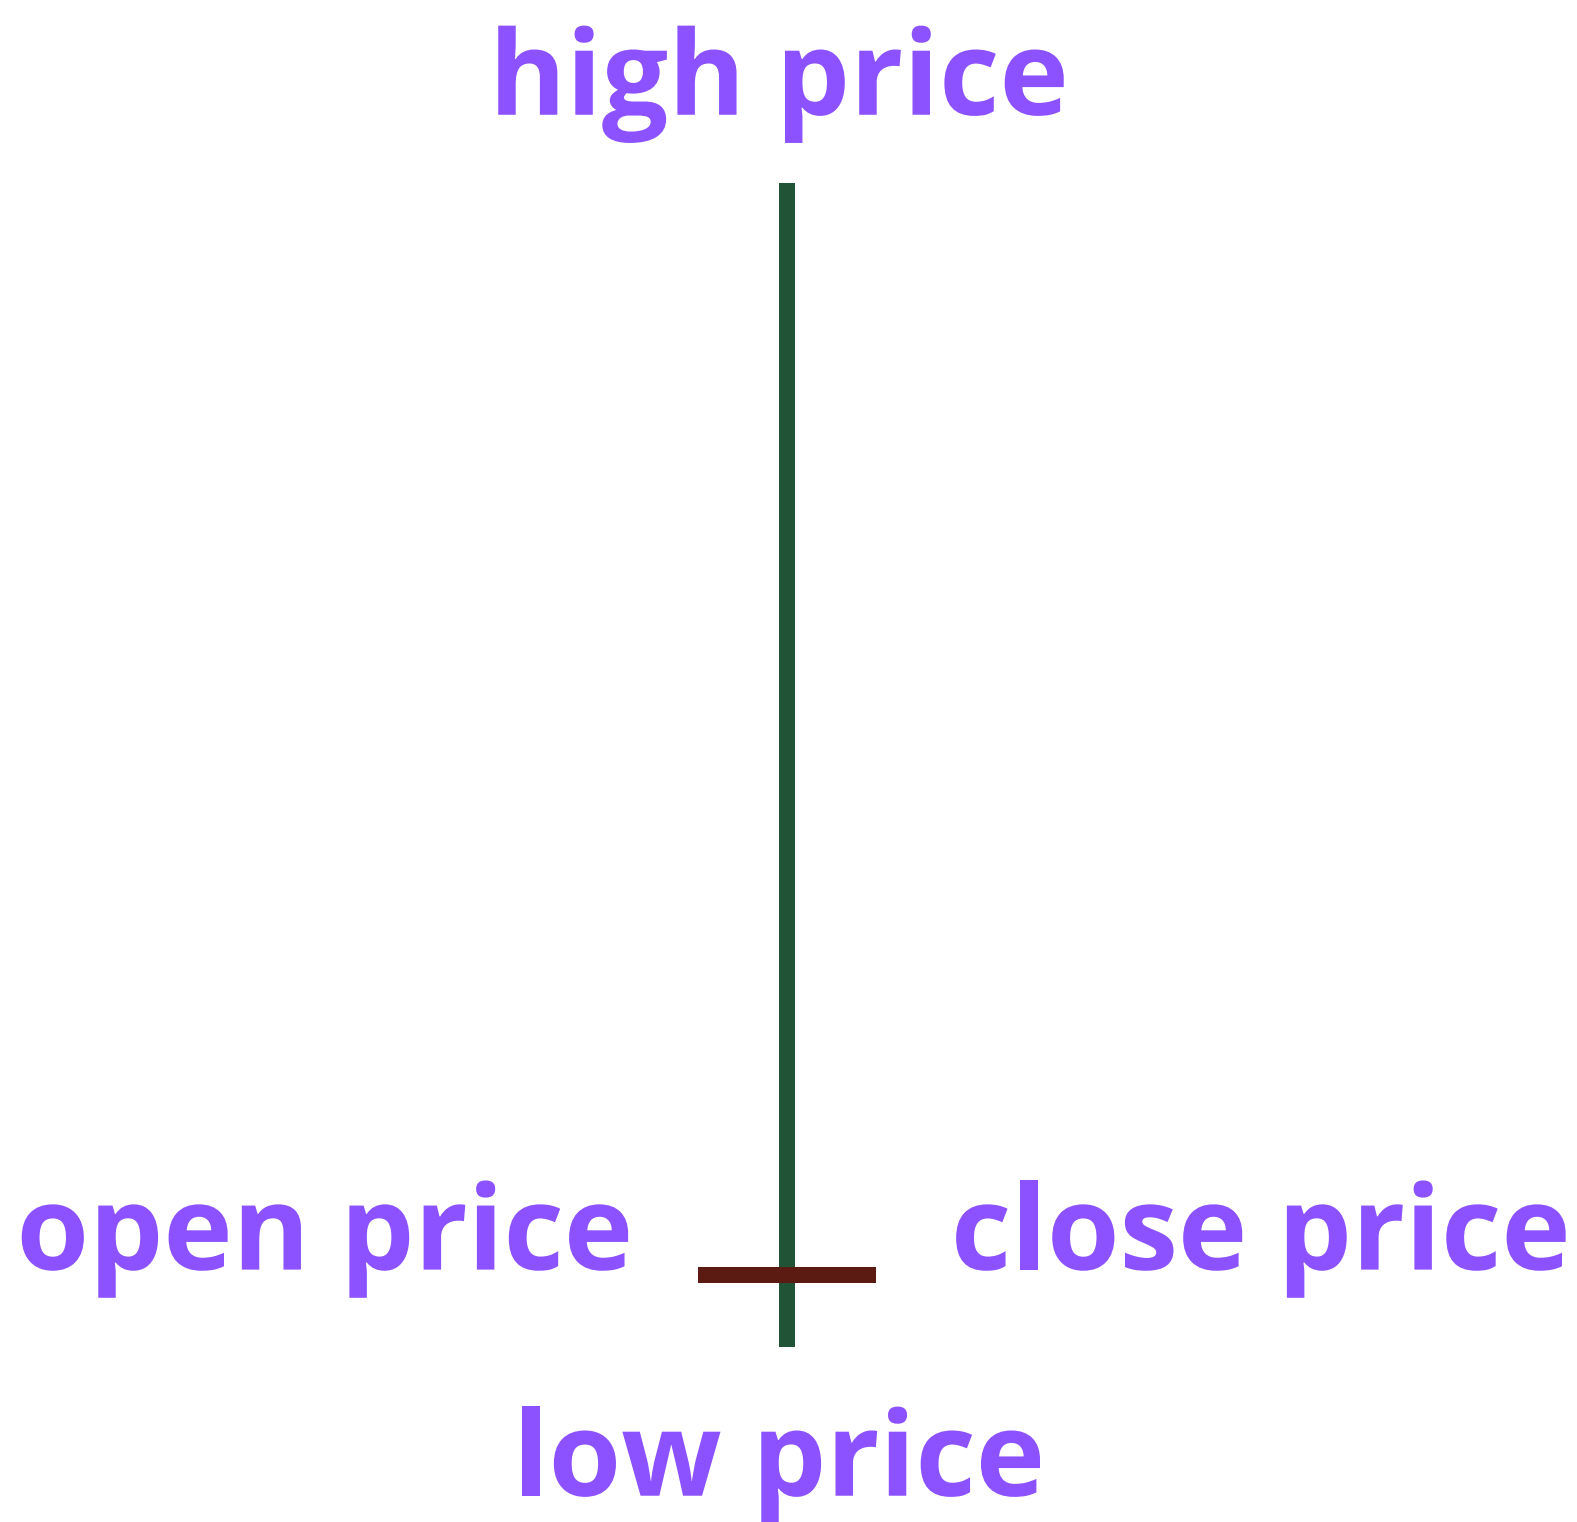

- **Preceding trend should be downtrend**
- **Bullish engulfing Candle should be formed**
- **Potential direction change**

BEARISH ENGULFING

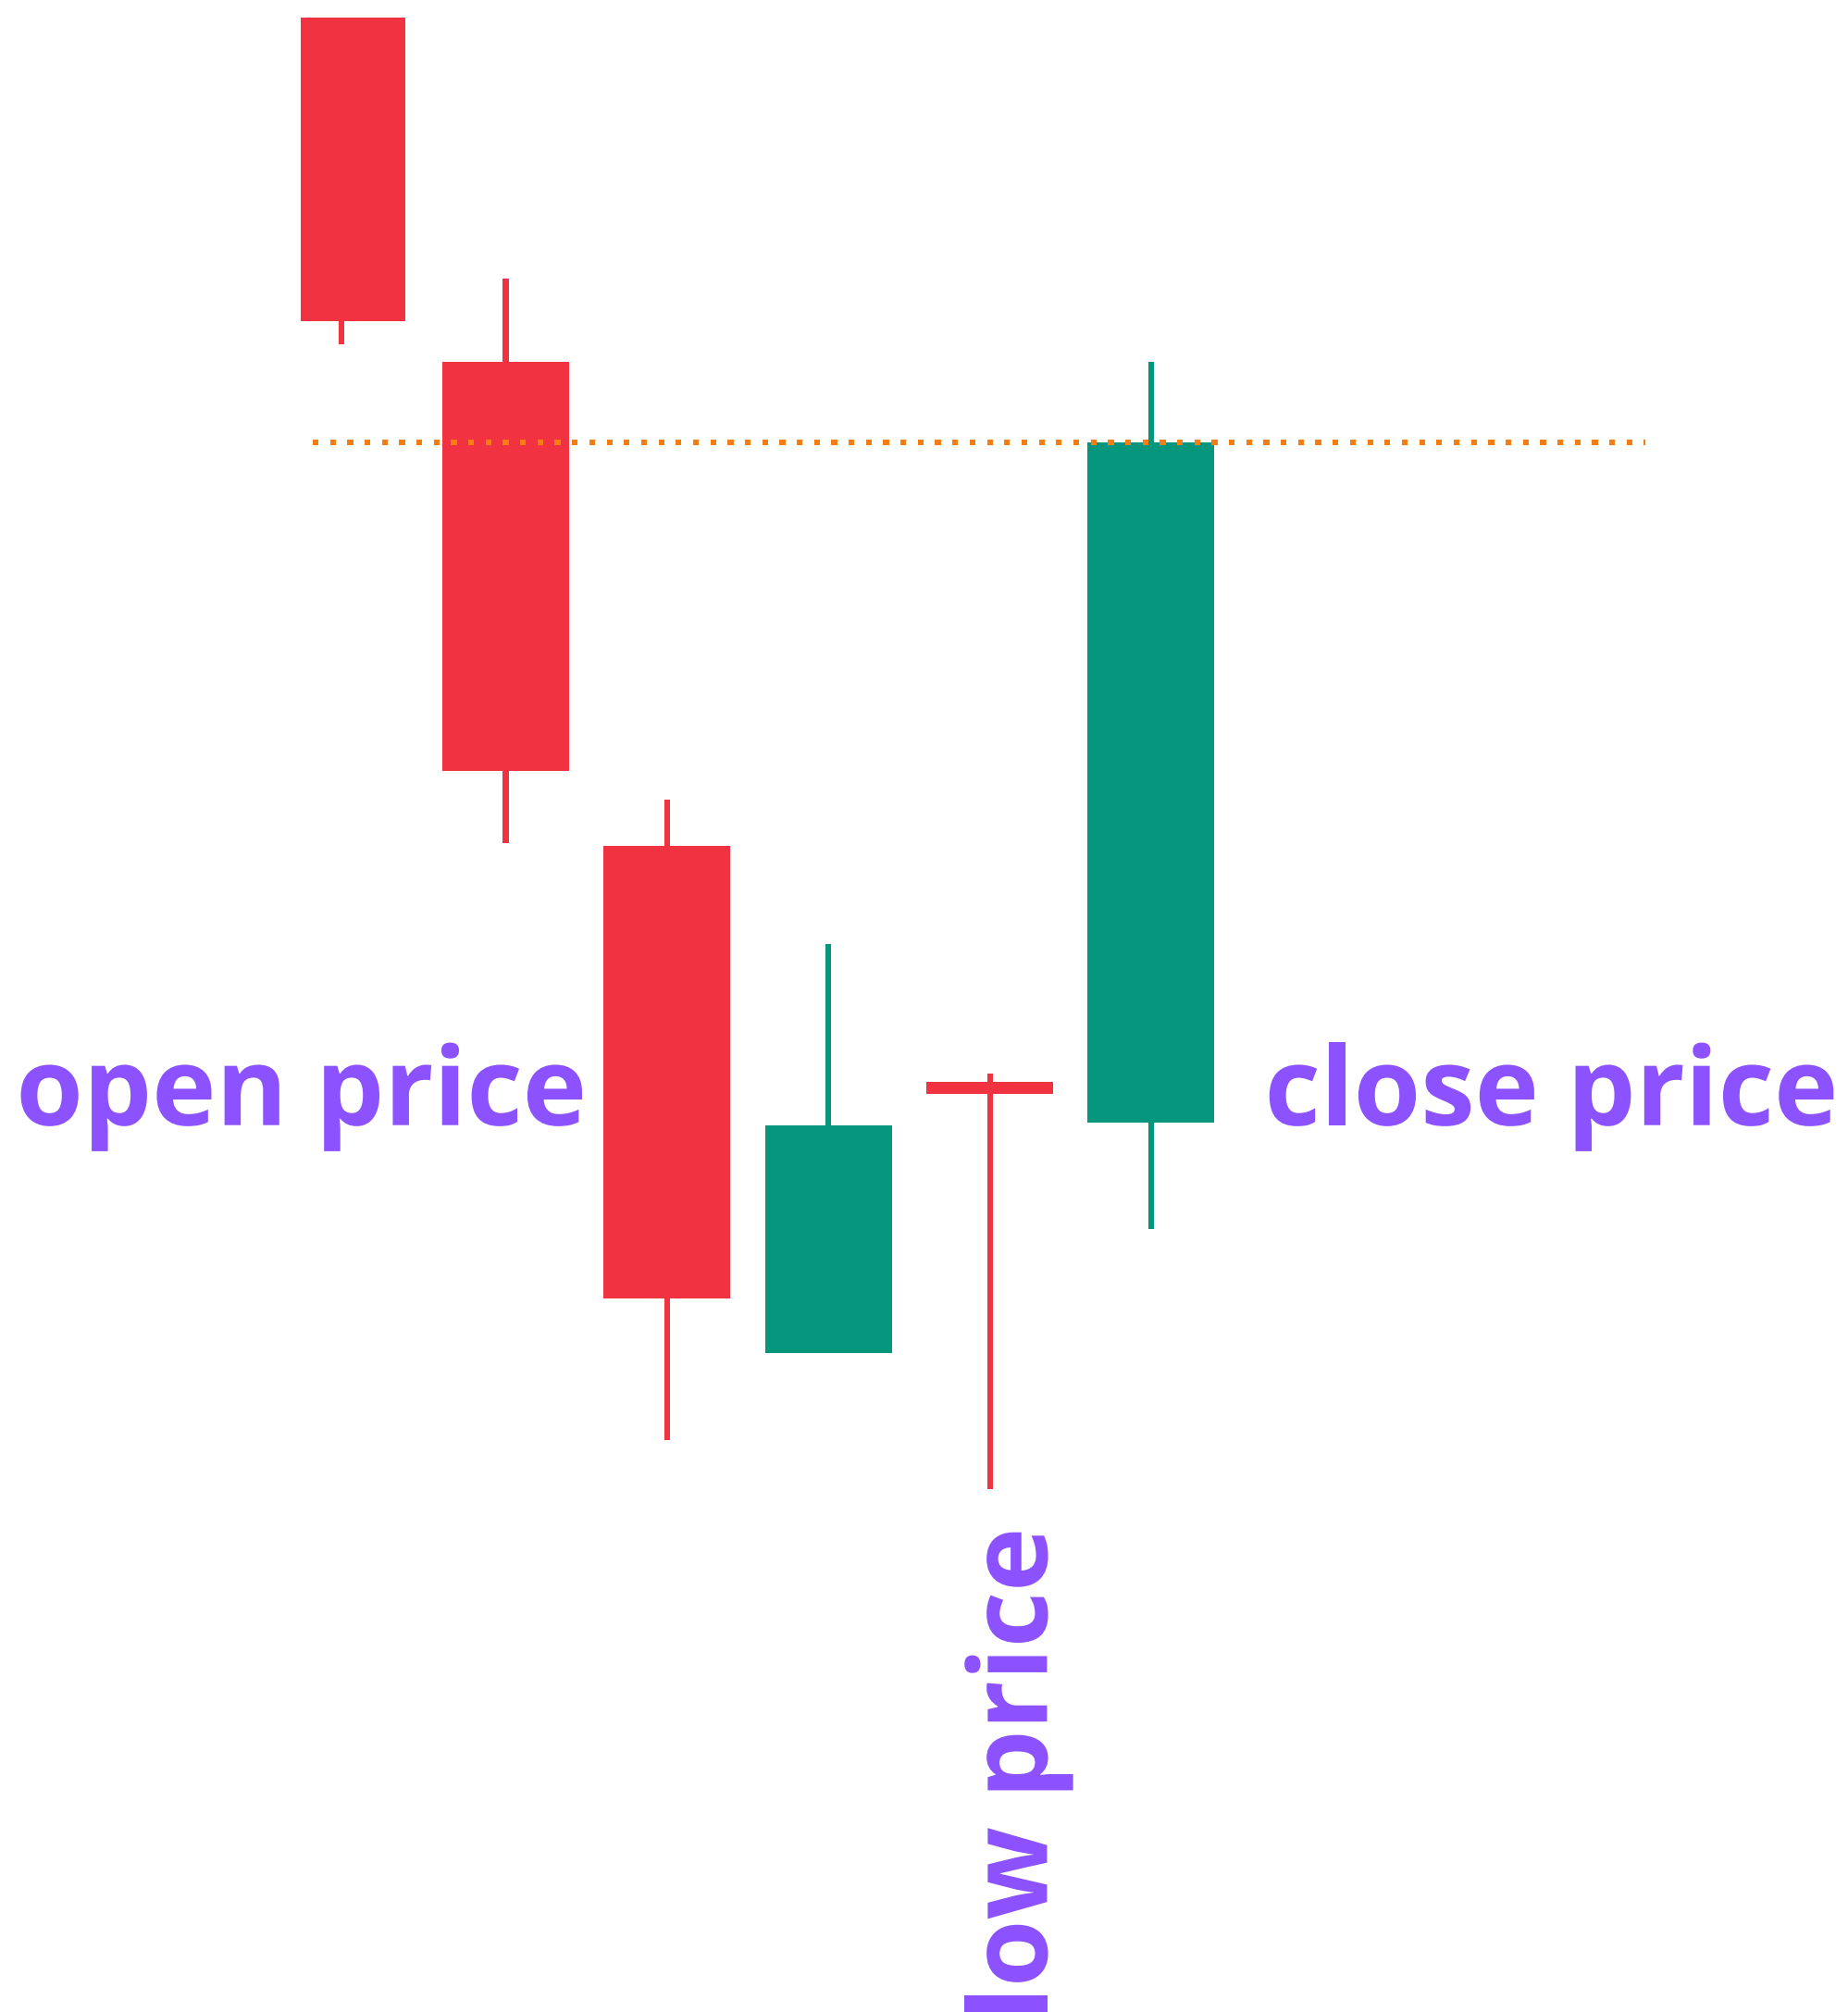

- **Preceding trend should be uptrend**
- **bearish engulfing Candle should be formed**
- **Potential direction change**

GRAVESTONE DOJI

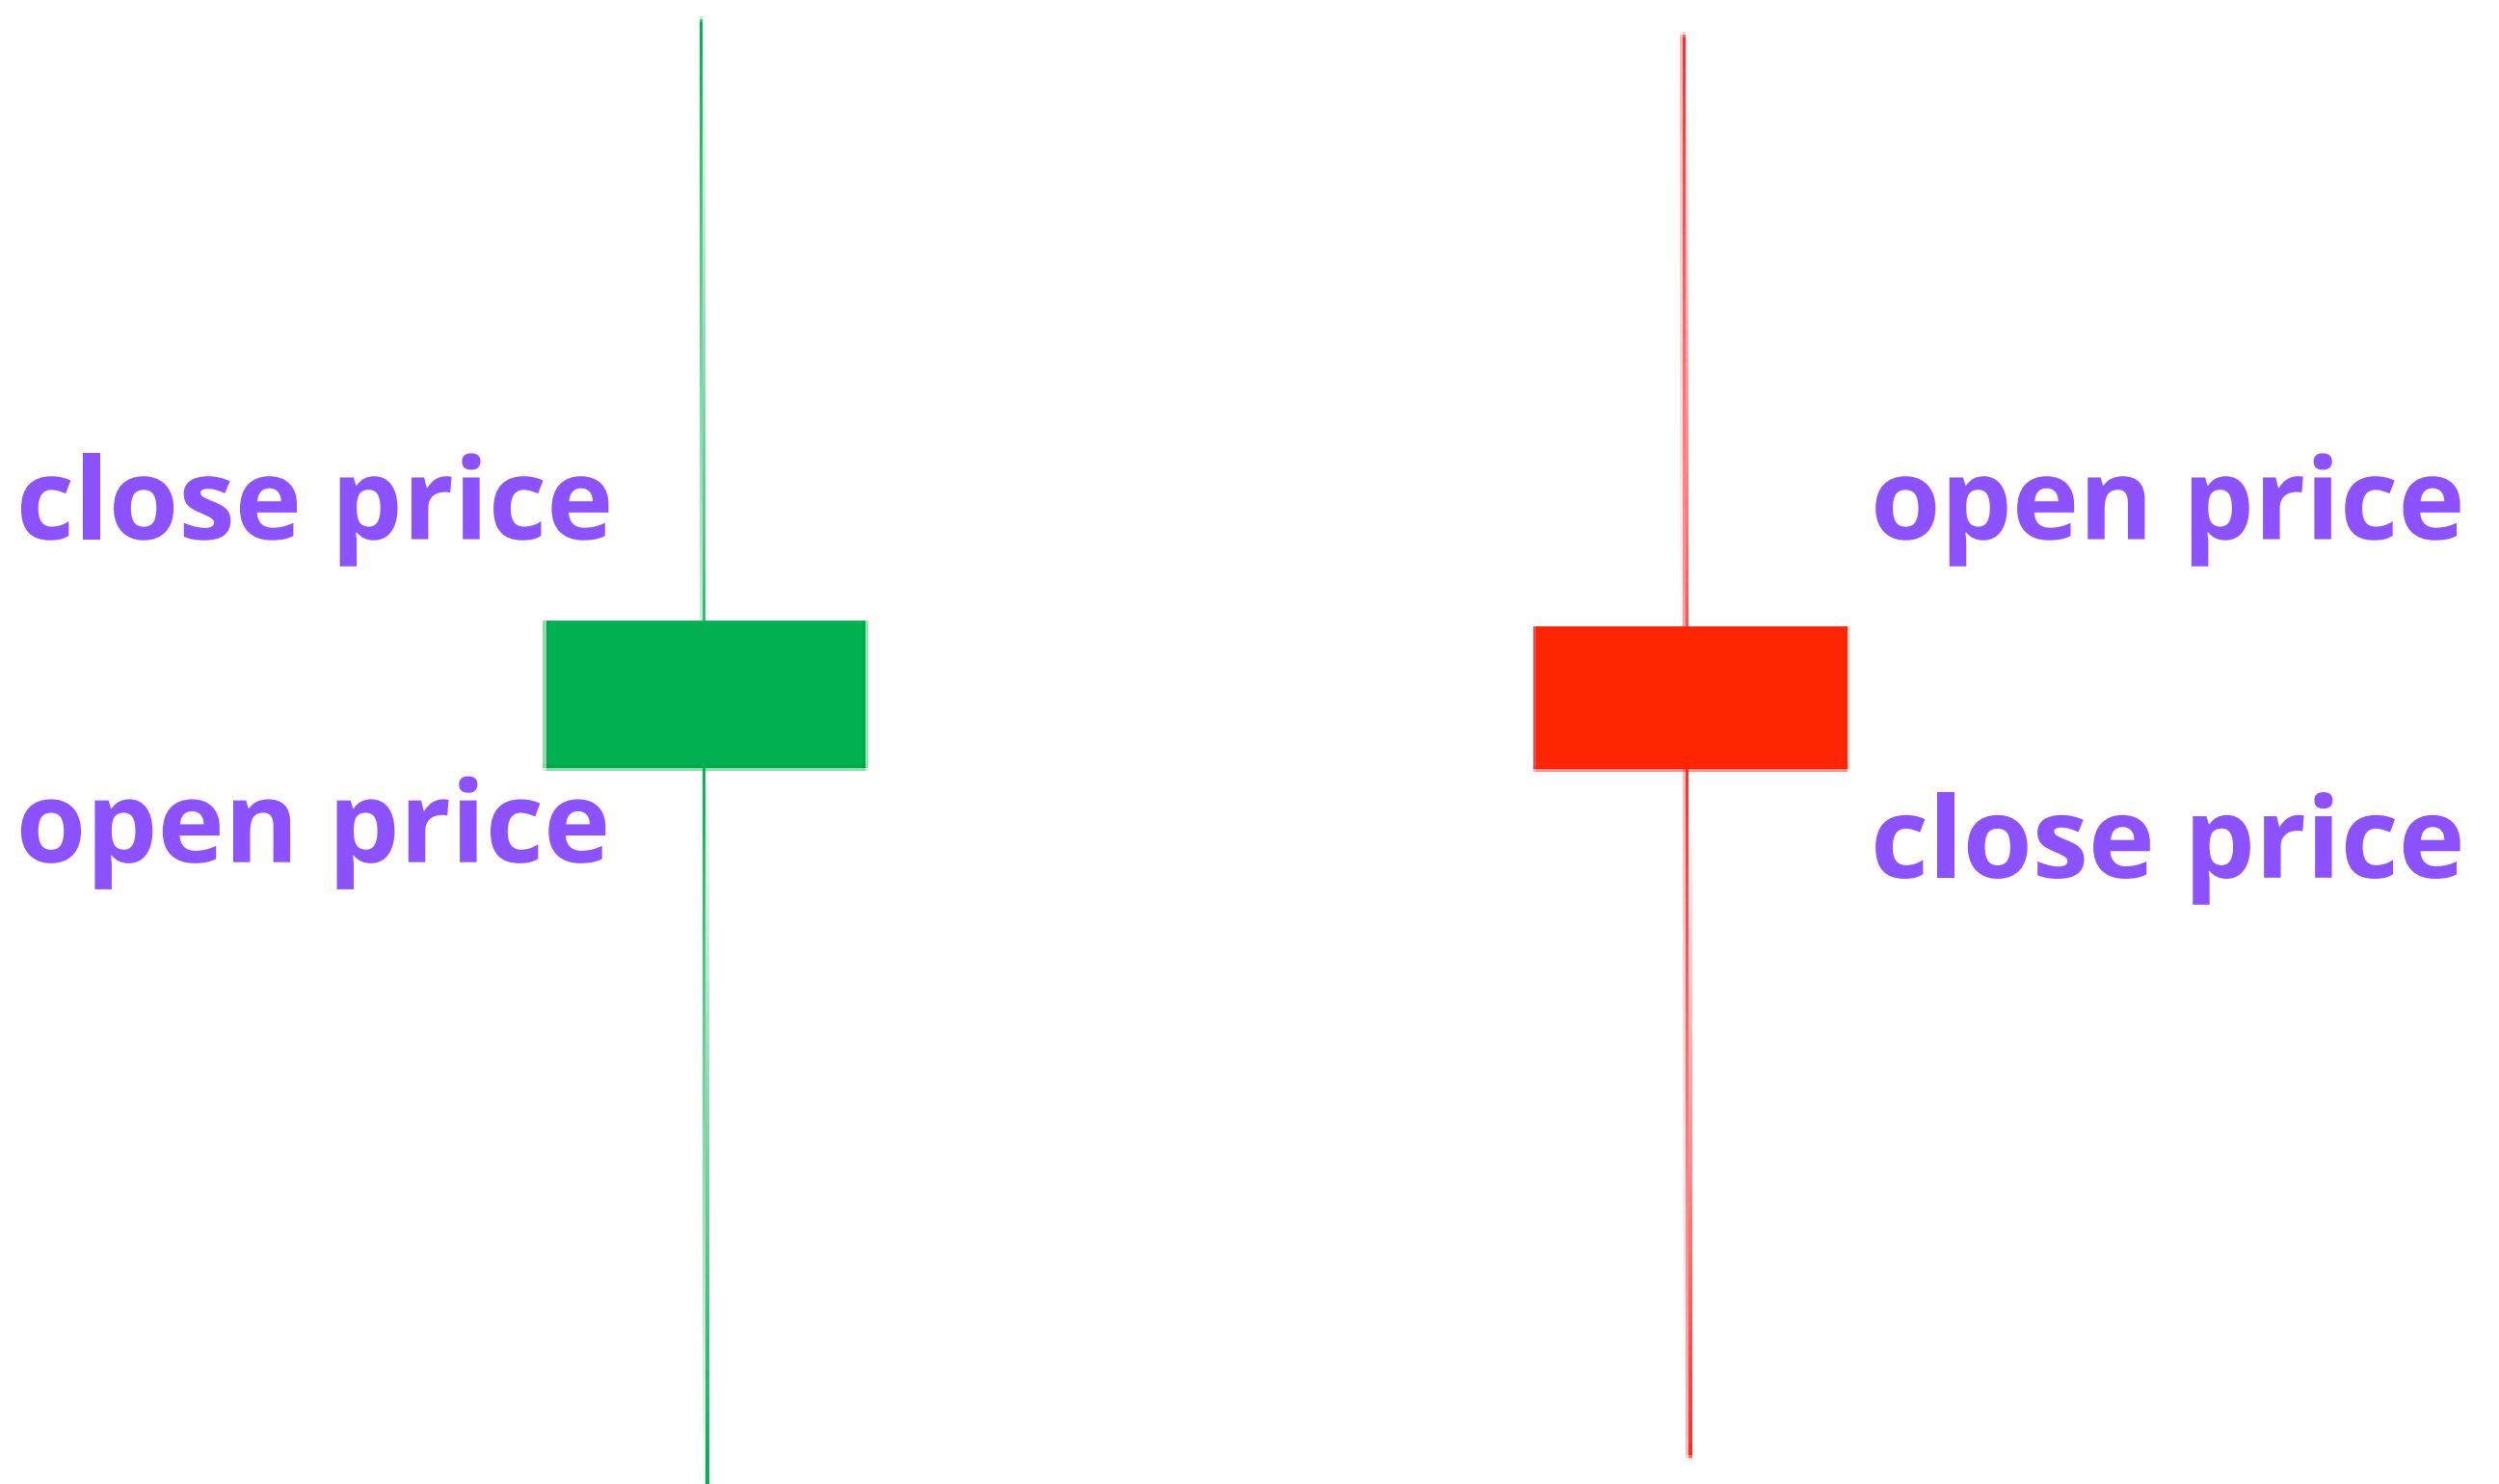

- **A gravestone doji is a bearish pattern that suggests a reversal followed by a downtrend in the price action.**
- **A gravestone pattern can be used as a sign to take profits on a bullish position or enter a bearish trade.**
- **The opposite of a gravestone doji is a dragonfly doji.**

DRAGONFLY DOJI

- **A dragonfly doji can occur after a price rise or a price decline.**
- **The open, high, and close prices match each other, and the low of the period is significantly lower than the former three. This creates a "T" shape.**

SPINNING TOPS

- **A spinning top can be found in both bottom of a downtrend and in top of an uptrend**
- **There can be a potential direction change after the formation of spinning tops**

**I JUST WAIT UNTIL THERE IS
MONEY LYING IN THE
CORNER, AND ALL I HAVE TO
DO IS GO OVER THERE AND
PICK IT UP. I DO NOTHING IN
THE MEANTIME.**

JIM ROGERS
